

2017 New Onix Paddles

HKZ5009 Graphite Summit

The Onix Summit is a radically new pickleball paddle that features an elongated hitting surface paired with a shortened handle, offering players a new way to grip their paddle. Designed with a table tennis handle and lengthened playing surface, the Onix Summit Pickleball Paddle allows players to grip the under-side of the paddle, providing longer reach, better control, and more spin on the ball than ever before. The Onix Summit paddle meets USAPA specifications for tournament play.

- Elongated paddle shape (16-3/8" L x 7-1/2" W) gives players a longer reach
- Table tennis handle allows players to deliver more spin than ever before
- Graphite face features lightweight speed, pop, and maneuverability
- Polypropylene honeycomb core provides excellent touch, power, and pop
- Medium weight (7.7-8.1 oz) balances speed and power for all-around performance

HKZ5010 Graphite Voyager

Explore new possibilities with precision and accuracy in every shot. The Onix Voyager pickleball paddle's precision cut polypropylene core and premium-coated graphite face are the perfect combination for creating incredible touch. This calculated construction allows players to put the perfect spin and torque on the ball play after play.

- Methodically engineered pickleball paddle for unbeatable play
- Incredible touch paddle with precision cut polypropylene
- Premium-coated graphite face adds perfect control to your shots
- Largest sweet spot with Wide Body paddle shape for better touch
- Heavy-weight 8.2-8.5 oz. paddle weight offers hard-hitting power

HKZ1360 Graphite Zen V2

The Onix Graphite Zen is an incredibly light paddle with amazing touch, making this paddle great for every playing situation. The graphite face and aluminum core deliver outstanding control. The oversized shape on the Zen offers a concentrated sweet spot for enhanced power and exacting ball placement. The Graphite Zen is a Hyperlite paddle, weighing in between 6.6 – 6.9 ounces, and is perfect for the player that is looking for outstanding touch at the net.

- Offers Great Control and Pop Behind the Ball
- Oversized Shape Creates a Concentrated Sweet Spot
- Aluminum Core and Graphite Face
- Oversized Paddle Shape with 4-1/4" Grip Size
- HyperLite Weight 6.6-6.9 Ounce Paddle Weight

HKZ1310 Graphite Phantom V2

The Onix Graphite Phantom is one of the most popular paddles in the Onix line because of its incredible control. The graphite face and aluminum core deliver outstanding touch, and the light-weight paddle, which weighs in at 7.1 – 7.4 ounces, is easy to maneuver quickly. The Widebody shape on the Phantom gives players a large sweet spot on the paddle. The Graphite Phantom is perfect for the player that is looking for outstanding touch at the net.

- Offers Great Touch and Power Behind the Ball
- Widebody Shape Creates a Larger Sweet Spot
- Aluminum Core and Graphite Face
- Widebody Paddle Shape with 4-1/4" Grip Size
- Light-Weight 7.1 – 7.4 Ounce Paddle Weight
