OUTDOOR TABLES 67
BALLS AND ACCESSORIES
MAKE YOUR LIFE EASIER

COMPARATIVE CHARTS . 84

It was back in 1969, over 40 years ago, that the Cornilleau family received an order for 300 table tennis tables at their family machine shop. Since then, Cornilleau has evolved into the world leader in table tennis design, with highly innovative and top-quality products centred around a new 'laminate' concept for outdoor ping tables, along with a "Compact Technology", that combines ergonomics, safety and design. A highly comprehensive range of leisure products developed for top-level competition, our products are available in over 65 countries around the world. All the Cornilleau tables are designed, developed and manufactured in France. The very heart of the company remains in Bonneuil-les-Eaux in the Picardy region, where the Cornilleau family originates. Within this hub is a research and development laboratory: a 'Made in France' think tank, intended to create, design and fashion all the products. In addition to our leisure line of products, Cornilleau has developed an excellent line of competitive products that has resulted in sponsoring a number of top-level international events. Cornilleau was the official World Cup sponsor for team events in 2007, 2009, 2010 and 2011.

# THE EXPERTISE

#### **JEAN PHILIPPE GATIEN** World Champion - Göteborg 1993

**S** ince 1993, Jean-Philippe Gatien, World Champion and double Olympic medal winner, has been partnering with Cornilleau. For six years now, he has been heavily involved in the Cornilleau Competition project as a consultant. In charge of the Cornilleau Team's players, Jean-Philippe supports our young athletes in their quest for excellence by sharing with them his experience at the very highest level of competition and providing the tools to enhance their performance. With the support of athletes forming the essence of the brand's sponsorship program, Jean-Philippe is able to translate Cornilleau's ethos through his actions.

## HIGH PERFORMANCE COVERINGS

ichelin, World Champions in multiple categories (Formula I, motorcycling, rallying, Le Mans 24 hours), has achieved success at the pinnacle of sport through its search for supreme performance. Michelin is a partner of choice for Cornilleau in this ambitious project to develop competition coverings.

### COMPETITION

This year, more than ever before, Cornilleau's range of competition products has been further enriched to reach an extraordinary level of quality and variety.

**The top of the range GATIEN blades series** is the result of traditional Swedish expertise and 2 years of development with our teams. Each of these blades – Pure, Vision, Absolum, Glory, Conquest and Origin — boasts a unique strong personality, which translates to an impressive sensation of stability and precision in the game, particularly at full pace. These ultra-high performance blades, developed for the most demanding players, will give you a truly unique experience!

**TARGET series** is a range of "Made in Germany" rubbers that stem from an extensive research and development program between Cornilleau's experts, Michelin's engineers and the biggest rubber manufacturer in the world.

More than ever before, the overall support of our athletes remains at the heart of our concerns and includes daily involvement from **Jean-Philippe Gatien**. Throughout the past few months, we've witnessed **Simon Gauzy** confirming his great potential with an exemplary journey up through the ranks, from 230th place to 64th place in less than 6 months. This progress, rarely equalled in Europe for a player of this age, is encouraging us to continue in this direction with the whole of **Team Cornilleau** I You too, can strive for more with **Experience Ping!** 

# cornilleau

cornilieau Catalog 2012-2013

comileau

12

T ARGET SERIES is a range of rubbers "made in Germany" and the result of a research and development program involving Cornilleau experts, Michelin engineers and the world's largest manufacturer of rubbers. The top priority for this project: reaching the highest level of performance and safety in top spin and counter top spin strokes.

## TECHNOLOGY TO IMPROVE YOUR GAME

Each TARGET, PULSE, PILOT, and DRIVE rubber top-sheet developed by Cornilleau and Michelin experts have a special formulation to optimize elasticity and a unique pimple shape.

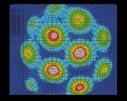

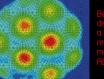

pimple

Buckling by traditional No buckling by Spin-Drive pimple

The specific geometry limits buckling formation (uneven deformation) thanks to an optimal pimple resistance under ball pressure, which provides you with MORE PRECISION. Buckling reduction avoids creation of a "waving" phenomenon between the rubber and the ball, and enables the possibility to give MORE SPID .

Traditional pimple • Numerous non contact areas with the ball Important zones of Overpressure

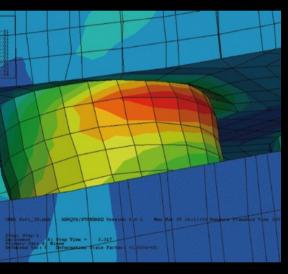

Spin-Drive pimple A more homogeneous contact area better contact with the ball Less overpressure

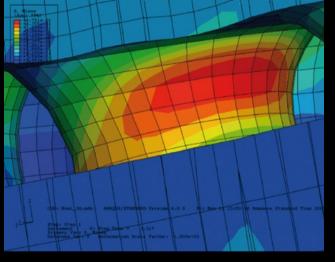

14

Contraction of the second

RUBBERS

Traditional pimple

Spin-Drive pimple

SPIN -DRIVE 3D technology consists in optimizing the three factors of pimples performance: shape, size and density. So, each TARGET covering has its own combination in order to achieve a specific goal: grip + precision for TARGET Ultim, grip + speed for TARGET Force, and grip + sound for TARGET Sound.

The GRIP EXTEND top-sheet, by its elasticity and impressive level of grip, will allow you to put more spin on each ball.

The specific composition and structure of its KHL pores allows NEHTENS sponge to interact more effectively with the pimples located under the surface in contact with the ball. The result: an impressive high curved trajectory for maximum safety.

made in germany

VULLINGER IN EDAN

#### RUBBERS

#### TARGET ULTIM 50 - 47,5

OFF + 2 versions available : 50°/47,5° 2,0/MAH red/black

High curved trajectory + precision. The ultimate new weapon, used by Cornilleau Team's members

#### TARGET FORCE 45 - 42,5

OFF + 2 versions available : 45°/42,5° 2,0/MAH red/black

High curved trajectory + speed. The perfect compromise between speed, grip and comfort.

#### **TARGET SOUND 37,5**

OFF + 1 version available : 37,5° 2,0/MAX red/black

High curved trajectory + sound. A cocktail comprising 100% enjoyment with a base of dynamism, grip and sound.

The Efficient Curve, Spin-Drive and DynaCell technologies are all part of our Long Life Performance program. Their combination guarantees you perfect stability over time and great sustainability of the two main performance criteria: grip and speed.

## LONG LIFE PERFORMANCE

#### PULSE RACER

2.0/2.2 • Red/Black

#### RUBBERS

With its DynaCell sponge version 43°, PULSE Racer of-fers extremely demanding players radical efficiency in every one of their offensive strokes. The Efficient Curve technology combines power and topspin rotation, and provides incredible counter-topspin security.

#### **PULSE RIDER**

PULSE Rider is for everyone whose ultimate priorities are pleasure, the feeling of ball touch and sound quality. DynaCell sponge version 38°, combined with the compact Efficient Curve, will impress topspinners with its incredible performance, especially with mid-way loops. 2,0/2,2 • Red/Black

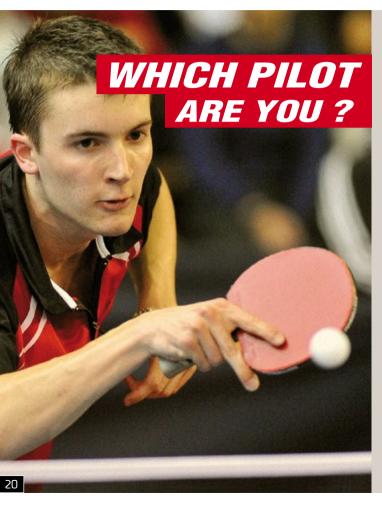

A unique vulcanization process improves the elasticity of rubber by forming thou-sands of polysulfide bonds (in yellow in illustration 2) between the macromolecules of the sponge (in blue and white in illustration 2). A significant proportion of natural rubber, combined with uniform cells (in dark beige in illustration 1), constitute the special features of our sponge. The 3D network is optimized and can respond more effectively to the impact of each ball. This optimization of the nature/structure dimension of the material is the key to new levels of performance in terms of rendering energy. This key technology now has a name: DynaCell.

Made of 90% natural rubber, the Efficient Curve top-sheet achieves an unrivalled degree of grip on coverings this fast. The displacement angle  $\partial$  achieved with the Efficient Curve makes it possible:

- to have more security making first topspin on chops
  to combine power and spin in a topspin smash (even if the bat is very closed).
  to "loop" the ball during mid-distance rallies

#### PILOT ADVANCE

PILOT Advance boasts the In-Tens sponge technology in the 40° version associated with the compact Spin-Drive. Firm and extremely dynamic, this uncompromising covering is aimed firstly at experienced players with a strong topspin, topspin smash, counter loop and active block. 18/20/22 • Red/Black

#### **PILOT POWER**

The In-Tens sponge technology in the 35° version, associated with the compact Spin-Drive, makes this covering a unique product! Soft yet incredibly dynamic, Pilot Power is aimed at resolutely offensive players, seeking maximum sensation in terms of topspin, especially at mid-distance, or when changing rhythm. 1,8/2,0/2,2 • Red/Black

# PLEASURE WITH CONTROL

DRIVE Style is an offensive covering providing a fairly soft 38° sponge. As well as the benefits of the Spin-Drive technology, you will obtain excellent performance in topspin and shots, while maintaining some extraordinary sensations. Easy to control, this covering offers enormous possibilities in terms of varying effects and strokes. 1,8/2,0/2,2 • Red/Black

DRIVE Control is the multi-use covering par excellencel Boasting Spin-Drive technology, it is mainly aimed at players who like to stand close to the table, adept at taking counter initiatives and varying effects. Perfect for beginners at 1.6mm, it is much more powerful at 1.8mm or 2.0mm. 1,6/1,8/2,0 • Red/Black

## **START UP'** Soft Medium Hard 30' 40' 50' 1....1....1....1

Endowed with a perfectly optimized grip, START UP ' passes on effectively the spin to the ball, while remaining very tolerant in counter-attack and in service return. Especially while topspinning, it makes the difference thanks to its sponge (1,8mm with a hardness of 40°). The result: an extraordinary control of ball and an impressive sensation of safety. START UP ' is the best you can find to start in competition. 1,8 • Red/Black

rience!

**BLADES** 

The top range Gatien Blades Series, result of traditional Swedish expertise, required around 2 years' development for our teams. Each of these blades - Pure, Vision, Absolum, Glory, Conquest and Origin — thus boasts a very strong personality, which translates as an impressive sensation of stability and precision in the game, particularly at full pace. These ultra-high performance blades, developed for the most demanding among you, will give you a truly unique expe-

### THE SWEDISH PERFECTION

Within this field, Swedish know-how stands out as an absolute reference point: highest mastery in the choice of

wooden essences, in their combination and assembly. «Two main factors have been the keys to my success in 1993: the improvement of an innovative game system based on the speed and the precision of my forehand, but also the high level specifications in selecting the material. The « Jean-Philippe Gatien Blades Series » is based on my experience and my constant search for effectiveness. »

World Champion Göteborg 93

# **JEAN-PHILIPPE GATIEN** BLADES SERIES

#### PURE CARBON OFF+

A revolutionary 15-ply structure.

15-ply for a unique topspin sensation! This "elastic" power is also harnessed on the strike, whilst the counter-initiative of comfort and safety are never overlooked.

#### VISION SOFT CARBON OFF+

A "soft carbon" blade which really packs a punch.

A "carbon" sensation which keeps a low profile at low speed, but is capable of releasing a huge burst of power when necessary. Formidably efficient.

#### ABSOLUM OFF+

the sense of control quality.

#### GLORY OFF

#### An impressive output.

A slender blade structure,

#### Pure Power in the pure state.

Devastating power obtained through the use of surface ebony. The central plies are of uniform thickness, heightening necessary in blade of this

yet extremely dynamic on impact. The outer Rosewood plies provide precision and vibro-acoustic comfort.

#### CONQUEST OFF

#### A sturdy character.

The hard outer Wenge plies make the blade extremely responsive. This incisiveness is perfectly counterbalanced by the clever use of balsa on either side of the triple central birch ply.

#### ORIGIN OFF-

To be consumed without moderation.

The central structure, made up of three uniform Abachi plies gives this blade impressive stability. This translates as impeccable control in every phase of play.

## THE RIGHT BALANCE

26

VinoTec

#### THE NOBLEST OF WOODS FOR EACH PLAYING STYLE !

inoki, which is present on the external ply and is combined with other carefully selected woods, offers a perfect balance between dynamism, ball handling and precision.

The Hinoki thus allows our Hinotec blade range to provide new sensations for each game style, and ensures a pleasurable game, as well as an extremely high quality finish.

Another notable aspect: unlike 100% Hinoki blades, which provide extremely high tones, the sound issued on each impact by Hinotec blades range will also delight you.

#### HINOTEC **OFF+** CARBON

demanding player!

#### HINOTEC OFF-

Hinotec OFF - blade suits to any game style. Surprisingly dynamic for a blade of this category, it can also satisfy more experienced players, as long as they choose fast coverings, as well as the most polyvalent players seeking responsiveness in his attacks.

Favoring top spin smashes, counter loops and active blocks, you seek the maximum power in each of your strokes. Very precise and perfectly controllable when taking the counter-initiative, Hinotec OFF+ Carbon blade is a redoubtable weapon at mid-distance.and its stroke will convince the most

5 - Plywood 85 g 1-5: Hinoki FL/ST/AN/C 2: Carbon 3: Kiri

5 - Plywood 85 g 1-5: Hinoki FL/ST/AN/C 2-4: Limba 3: Ayous

#### HINOTEC OFF

3 words to describe Hinotec OFF: power, sensation and precision. Resolutely offensive, this blade is easy to control under all circumstances. Experienced players will appreciate the ability to choose from a range of rhythms. The most polyvalent player can boost their game, as long as they are reasonable when it comes to choosina coverinas.

#### HINOTEC ALL+

A model of tolerance, Hinotec ALL+ blade is reassuring. Whether you are a polyvalent player, or just a beginner, this is for you! Don't get the wrong idea, this blade isn't slow. It provides startling sensations of control and ease of play, without ever letting you down when you need to speed up or strike the killing blow.

#### ight blades (70-7

The concept allows optimal transmission to the handle of shock waves generated on impact with the ball. The hand's sensorial system immediately processes the sensations necessary for perfect response.

#### AERO OFF+ SOFT CARBON

jous of carbon!

#### AERO OFF

control and great comfort.

5-Plywood 75g FL / CP

**BLADES** 

Probably the lightest "Carbon" blade on the market! Its two "High Tech" layers (special blend of carbon and epoxy-resin fibres) will provide the owners of this resolutely offensive blade with unprecedented sensations of power and precision. A perfect choice for those who want to muscle up their game or just discover the

Sensations and speed are greater than ever with the AERO OFF blade. Topspinners will love the incredible feeling of safety and ease of play it offers. AERO technology will also allow you to immediately enjoy perfect

#### AERO OFF-

With the big growth in "new generation" rubbers, often very fast, it is up to offensive players to choose the right blade to limit their counterattack and service-return fouls. This AERO OFF- blade features an extraordinary compromise between speed and security. Topspin enthusiasts will especially appreciate its flexibility as well as its haunting sound delivery.

75g FL / CP

#### AERO ALL+

Rarely has a blade suited so many different playing styles. The AERO ALL+ blade is unique in offering instantaneous comfort and security while effectively making all offensive strokes. Unrivalled multi-use!

	ywood	
75g		
FL /	CP	

#### AERO ALL

A real «featherweight», the AERO ALL blade is a sure winner for all players looking for maximum control and sensations. Whether you are a good all-around player or more defensive, you will be convinced after just a few rallies. Enjoy a new range of playing pleasures thanks to AERO technology

5-Plywood 70g FL / CP

## FITTMOVE

#### A - MAXI ROLLER BAG

Black - Grey — Red • 83 x 47 x 28 cm • 600D Polyester • Tralley case with 2x notched wheels • Tall telescoping traction grip with button • Can be carried in hand or on the shoulder • Adjustable shoulder strap + high double grip with scratch • Built-in address holder • 2x zippered pockets on outside front • Main zipper can be used with padlock • Built-in address holder • Inside space: expandable double compartment, separator board, elastic straps, spaces for shoes and damp linens.

#### PLAYER'S COMFORT

#### FOR INITIATING FUTURE CHAMPIONS

#### The Baby Ping

There are a whole host of great reasons to encourage your child to take up ping. It's a friendly sport, which can be played amongst several people and enables the development of psychomotor skills, concentration as well as a shrewd mind. A tool such as BABY PING enables fast learning so you can start playing and having fun.

## PING, A CHILD'S PLAY

The DVD «Le Ping pour les 4-7 ans » The training method used sets up the path to success, which makes initial exchanges easier. Based on the domain of the imagination (the circus world, wild animals and accounts), the exercises and recreational circuits are combined with the notion of enjoyment. (only available in French).

At home: the imagination of the child is stimulated through situations he or she will be able to put into practice on their own, or in collaboration with others and in duels. This will encourage their address and speed of execution, as well as teaching them about the values of sport such as respect and working towards a goal.

#### BEGINNERS

**At school:** the situations suggested in the DVD, correspond with the French education programs, with real progress from one situation to the next (from first to fifth year primary school age), which will help the child acquire new skills, while stimulating thought and concentration.

At the club: the training situations work on dexterity and motor skills.

b : Short handle : 9 cm c : Thin handle : - 15% d : Reduced paddle e : Comfort zones for the hand (smoothed edges and thumb)

**BABY PING Kit** DVD, bats and balls

and materials. Made of foam or celluloid they make the initial exchanges easier thanks to a slower speed but a dynamic bounce. The large balls measuring 55 mm in diameter make the strokes and the spins easier. Finally, two-tone balls enable the player to visualize the rotation.

The balls come in a variety of shapes

#### CHAMPION BATS

#### Réf : 629021

This bat is perfectly suited to club beginners between 6 and 10 years of age, thanks to its specific ergonomics (perfect handle and paddle size, comfort zones for the hand). its speed and grip will allow young beginners to familiarize themselves with spin. The size of the handle (9 cm long) means they can ma a backhand under good conditions 5-Pluwood blade ITTF Approved

- Performa 1 rubber, 1.5mm weight: 150g

The bat As such the two-tone «Panda» bat, enables the spin of the ball to be discovered thanks to the auality of the rubber as well as enabling bet ter control of the ball thanks to a thick foam coating which absorbs shock. The edges of the blade are softened. Naturally the hand grip has been adapted with a shorter (8cm) and narrower handle (2.2cm) with a reduced weight, just 110g as opposed to 150g for an adult's beginner bat.

#### **COMPETITION TABLES**

ITTF EVENT Table Static event model, ideal for taking your competitions to new heights.

For fun and discovering the joys of ping pong. Suitable for the youngest of players thanks to its adjustable legs for 3 playing heights.(760/680/600 mm). Tops fold in half for easy storage. Easy to set up. Supplied with posts and net Playing dimensions: 1370 x 760 mm. Top : 16 mm

### **CLEANING**

Revitalising foam cleanser - highly effective design particularly for the maintenance of table tennis tables. Revitalises the look and provides optimum playing conditions. Anti-static action.

## MAKING YOUR LIFE EASIER

### Safety

All our tables comply with the European safety standard EN 14468 -1. To ensure the highest safety levels, Cornilleau product compliance exceeds this standard.

### Assembly

Cornilleau tables are easy to assemble using clear and detailed diagrams. Many parts are pre-assembled in our factory. User guides and labels on each playing surface describe the main safety guidelines and instructions for use. Average assembly time: 1 hour

### Guarantee

Cornilleau guarantees the tables against manufacturing defects for 3 years. This guarantee is extended to 10 years for the playing surfaces of outdoor tables.

### After sales service/ spare parts

Our customers benefit from high quality products and an excellent after sales service. Spare parts can be ordered directly from **www.cornilleau-services.com** For tables manufactured within a minimum of the last 10 years.

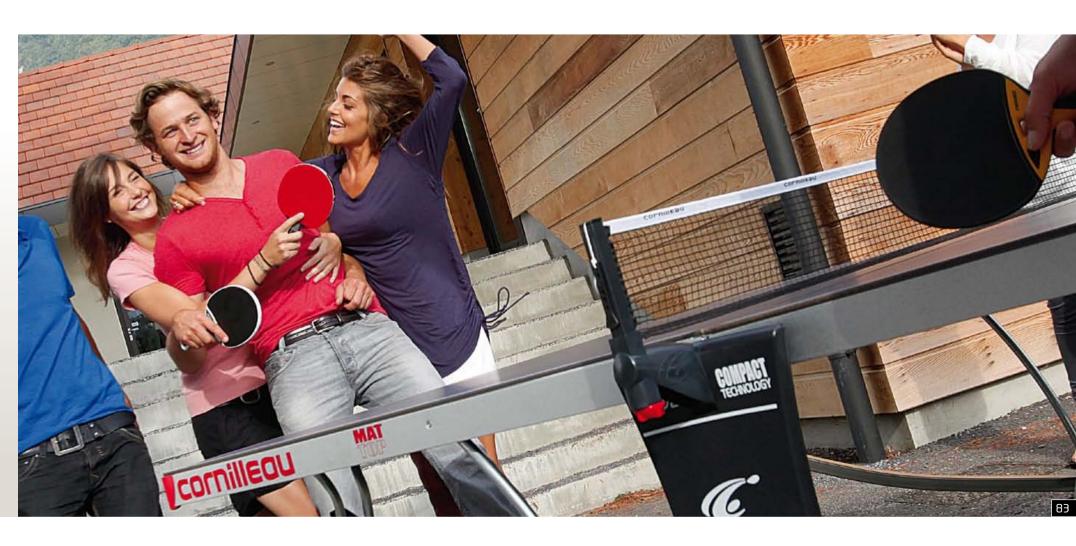

Cornilleau after sales service: located at our headquarters in Bonneuil-les-Eaux (France), this department comprises specialists who can answer your questions and provide advice with just a simple call to:

+33(0)3.44.80.22.22 from Monday to Friday from 8h00 to 12h00 and 13h30 to 17h30. (Paris time)

### Dimensions

Packaging: height 141 cm, length 157 cm, width 10 to 20 cm Closed table : height 155 cm, length 167 cm (sport and institutional range) and 183 cm on all other models, width 75 cm

Playing dimensions: height 76 cm, length 274 cm, width 152,5 cm.

his bat

**ADVICES:** ALL to OFF- «inverted» rubber, with a sponge hardness < or = 40°. Thickness of the sponge (for «inverted» rubber); less than or equal to 1.8mm. DEF to ALL+ blade.

his bat.

**ADVICES:** ALL to OFF «inverted» rubber, with a sponge hardness < or = 40°. Thickness of the sponge (for «inverted» rubber): from 1.6 to 1.8mm. ALL to ALL+ blade.

## **PLAYING STRATEGIES**

**DEFINITION:** «Traditional» defense, far from the table, generally involving chops (with both forehand and backhand).

MATERIAL: Very often a «long pimple-out» rubber (with or without sponge) on backhand, combined with an «inverted» rubber on forehand. The player can turn

**DEFINITION:** «Modern» defense, namely a DEF game with frequent counter-attacks generally incorporating smash or topspin shots.

MATERIAL: «long pimple-out» rubber (with sponge) on backhand, combined with an «inverted» rubber on forehand. The player often turns his bat.

ADVICES: ALL+ to OFF+ «inverted» rubber, with a sponge hardness < or = 42.5°. Thickness of the sponge (for «inverted» rubber): from 1.6 to 1.8mm (or even 2.0mm, according to the level of the player). ALL to OFF- blade.

DEFINITION: A passive game based on small pushes and blocks alternating with mid-distance defensive shots. Offensive shots are pretty rare.

MATERIAL: «pimple-out» rubber (short, mid-long or long) or "antispin" on bac-khand, combined with an «inverted» rubber on forehand. The player barely turns

**DEFINITION:** varied game, more geared around a mid-distance from the table and favoring ball control, placement and variations in spin. The aim is to cause your opponent to commit an error.

MATERIAL: Two «inverted» rubbers.

**ADVICES:** ALL+ to OFF rubber with a sponge hardness < or = 40°. Thickness of the sponge from 1.8 to 2.0mm. ALL to OFF- blade.

ALL+

ALL

DEFINITION: varied and precise game with blocks and counter-initiatives, closer to the table than the ALL- and ALL games. The placement, variations in spin and rhythm are used in order to secure easy-scoring balls.

MATERIAL: Two «inverted» rubbers.

**ADVICES:** ALL+ OFF covering rubbers (OFF+ drive according to level), with a sponge hardness  $< \text{or} = 40^{\circ}$ . Thickness of the sponge from 1.8 to 2.0mm. ALL to OFF blade.

OFF-

DEFINITION: Offensive play with variations in rhythm and spin, most often slightly mid-distance from the table. Basically topspin is widely used here, principally with late contact on the ball and some fairly high, curved trajectories.

MATERIAL: Two «inverted» rubbers.

**ADVICES:** OFF/OFF+ rubbers, with a sponge hardness < or = 42.5° on both sides. Thickness of the sponge from 1.8 to 2.0mm, ALL+ to OFF+ blade.

OFF

**DEFINITION:** Complete offensive play, combining fast strokes close to the table and variations in rotation at mid-distance from the table. The topspins are varied and often powerful, accentuated blocks and the player especially mobile. MATERIAL: Two «inverted» rubbers.

**ADVICES:** OFF+ rubber with a sponge hardness >  $40^{\circ}$  on forehand and < or =  $42.5^{\circ}$ on backhand. Thickness of the sponge from 2.0mm to max. OFF- to OFF+ blade.

OFF+

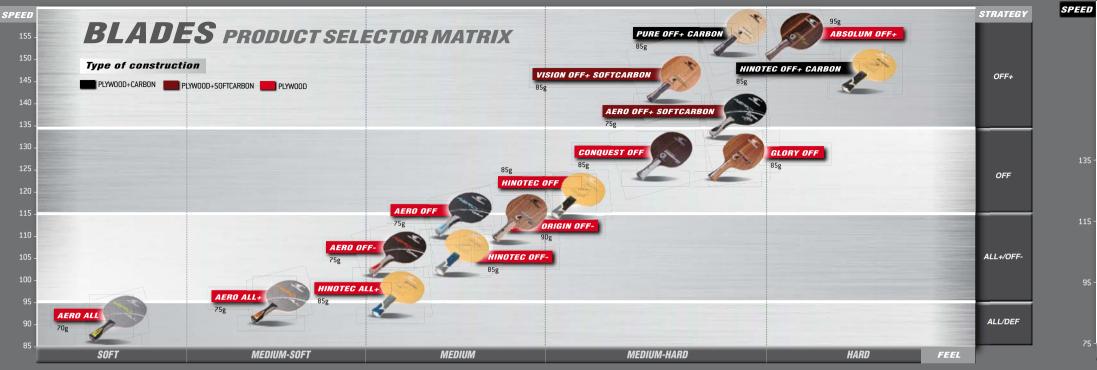

DEFINITION: Very offensive style where taking the initiative is the absolute priority. The player moves about close to the table, returning the ball very early using topspin smashes, loops or active blocks. The player may also move away to a mid-distance from the table with wide-ranging and powerful topspins.

MATERIAL: Two «inverted» rubbers. Possible use of short «pimple-out» rubber on one of the two sides (common in Asia). The ball is then «punched» back on the bounce!

**ADVICES:** OFF+ rubbers with a sponge hardness > 40° on both sides. Thickness of the sponge from 2.0mm to max. OFF to OFF+ blade.
