PUSHING BACK THE LIMITS

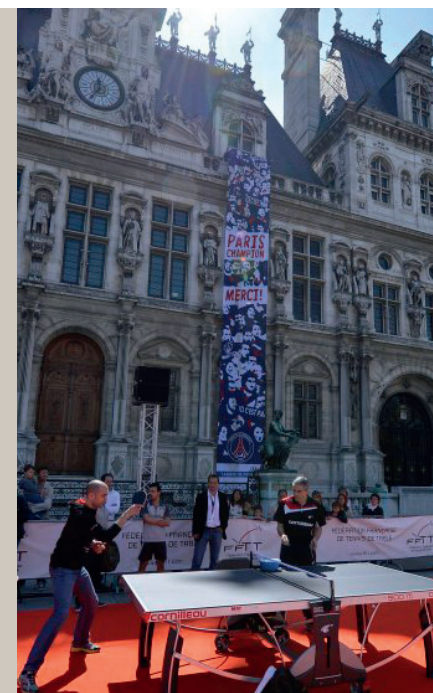

In keeping with its tradition for innovation, Cornilleau is again pushing back the limits in the practice of Ping by offering a table suited to freely accessible playgrounds: **the PARK table**. Its assets: unfailing sturdiness, great playing features and a sleek design.

CREATING EMOTION

The 3rd edition of **Ping UK** was held on the fringes of the Olympic Games 2012 in London. Over a 2-month period, nearly 400,000 participants got a chance to play on over 300 Cornilleau tables, distributed right across the UK and including around a hundred tables in the capital itself.

As for **Mondial Ping Tour 2013**, this is a fantastic promotional drive supported by Cornilleau and organised by the French Table Tennis Federation right across metropolitan France, in the run up to the World Championships in Paris-Bercy. Over a 7-week period, this vast programme of entertainment, centred around Ping, and open to the general public in 25 host cities, has proved to be hugely successful with over 50,000 participants.

Another striking fact is the recent opening in Paris of the only venue of its kind in France: the **Gossima** Ping-Pong bar. The perfect spot to get together for a drink with friends, relax while listening to music, a bat in your hand, and benefit from the delights of ping on a series of exclusive Cornilleau tables.

A PROMISING FUTURE

Work, commitment, sacrifice, determination... such are the values that enabled **Simon Gauzy** to get back into the running after several months away from the game due to injury and give concrete expression to the great potential identified in him years ago, by securing his first **Champion of France** title at just 18 years of age. As for Thomas Le Breton, he earned himself a very fine bronze medal. These initial results on a senior national level are an important step and have been amazingly encouraging for all of Team Cornilleau. Their challenge will be to follow this performance through onto the international chessboard over the coming years.

A TRADITION FOR INNOVATION

Cornilleau has evolved into the world leader in table tennis design, with highly innovative and top-quality products centred around a new 'laminat' concept for outdoor ping tables, along with a "Compact Technology", that combines ergonomics, safety and design. A highly comprehensive range of leisure products developed for top-level competition, our products are available in over 75 countries around the world.

All the Cornilleau tables are designed, developed and manufactured in France. The very heart of the company remains in Bonneuil-les-Eaux in the Picardy region, where the Cornilleau family originates. Within this hub is a research and development laboratory: a 'Made in France' think tank, intended to create, design and fashion all the products.

In addition to our leisure line of products, Cornilleau has developed an excellent line of competitive products that has resulted in sponsoring a number of top-level international events. Cornilleau was the official World Cup sponsor for team events in 2007, 2009, 2010 and 2011.

FRENCH EXPERTISE

**THE CORNILLEAU EXPERTISE
WILL BE EXPORTED TO NEARLY
75 COUNTRIES IN 2013**

THE EXPERTISE OF A CHAMPION

JEAN-PHILIPPE GATIEN

World Champion - Göteborg 1993

Since 1993, Jean-Philippe Gatien, World Champion and double Olympic medal winner, has been partnering with Cornilleau. For six years now, he has been heavily involved in the Cornilleau Competition project. In charge of the Cornilleau Team's players, Jean-Philippe supports our young athletes in their quest for excellence by sharing with them his experience at the very highest level of competition and providing the tools to enhance their performance. With the support of athletes forming the essence of the brand's sponsorship program, Jean-Philippe is able to translate Cornilleau's ethos through his actions.

HIGH PERFORMANCE RUBBERS

MICHELIN

Performance

Michelin, World Champions in multiple categories (Formula 1, motorcycling, rallying, Le Mans 24 hours), has achieved success at the pinnacle of sport through its search for supreme performance. Michelin is a partner of choice for Cornilleau in this ambitious project to develop competition rubbers.

Experience Ping!

MONDIAL PING TOUR

A fantastic promotional drive supported by Cornilleau and organised by the French Table Tennis Federation right across metropolitan France, in the run up to the World Championships in Paris-Bercy (April/ May 2013). Over a 7-week period, this vast programme of entertainment, centred around Ping, and open to the general public in 25 host cities, has proved to be hugely successful with over 50,000 participants.

GOSSIMA : A PING-PONG BAR IN PARIS

The perfect spot to get together for a drink with friends, relax while listening to music, a bat in your hand, and benefit from the delights of ping on a series of exclusive Cornilleau tables. **Gossima**, 4 rue Victor Gelez, 75011 Paris www.gossima.fr

DEATH VALLEY

Decidedly our outdoor tables can stand the heat, even in the middle of the American desert!

PING UK!

The 3rd edition of Ping UK was held on the fringes of the Olympic Games 2012 in London. Over a 2-month period, nearly 400,000 participants got a chance to play on over 300 Cornilleau tables, distributed right across the UK and including around a hundred tables in the capital itself.

STREET PING-PONG IN RUSSIA

2 Russian policemen agree to a short break during the Russia Open 2012 in Ekaterinbourg.

SIMON GAUZY CHAMPION OF FRANCE 2013

At just 18 years of age, Simon treats himself to the double with wins in the men's singles and doubles competition! Thomas Le Breton secures a very fine bronze medal in the singles too.

OUTDOOR TABLES

High quality materials adapted to meet your needs.

What if you leave your table outside all year ?

Cornilleau has been a pioneer in "outdoor" tables for the garden. They are designed with anti-corrosion materials ensuring resistance to bad weather.

Panels in solid resin laminate, resistant to bat blows. The thicker the panel (4 to 7 mm), the better the bounce.

PANEL THICKNESS

**SOFT[®] MAT[®]
TOP**

THE KNOW-HOW

MAT TOP : 10 times less reflective.
Improves the release of spin effect

SOFT MAT : 3 times less reflective

DSI[®]

Integrated Double Security

Using a central release handle, the table can be opened and closed with extreme ease. The DSI system has **16 locking points**. The table is fully locked in playing and storage positions. What's more, because of its unique system, if a child opens the table and releases the handle, the panel automatically locks at 65°, thereby avoiding any risk of accident. Finally, if the top is not fully locked in the playing position, a second locking level stops the top from flipping over.

THE SAFEST TABLE ON THE MARKET

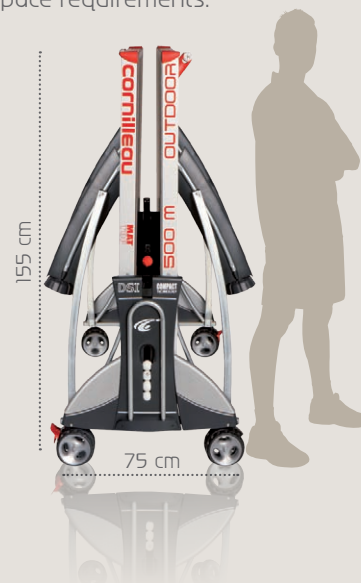

Playback position for solo practice.

COMPACT[®] TECHNOLOGY

Easy to store

The patented "Compact Technology" system ensures optimum safety, easy movement and minimizes storage space requirements.

Cornilleau Innovations

CORNER PROTECTION PADS

Protection on each corner of the table to guarantee maximum safety for your children.

WHEELS WITH BRAKES

Brakes provide great stability for even better playing comfort, providing additional safety when the table is in storage.

BALL DISPENSERS

Placed alongside the player, these dispensers are extremely practical, meaning balls are always within easy reach.

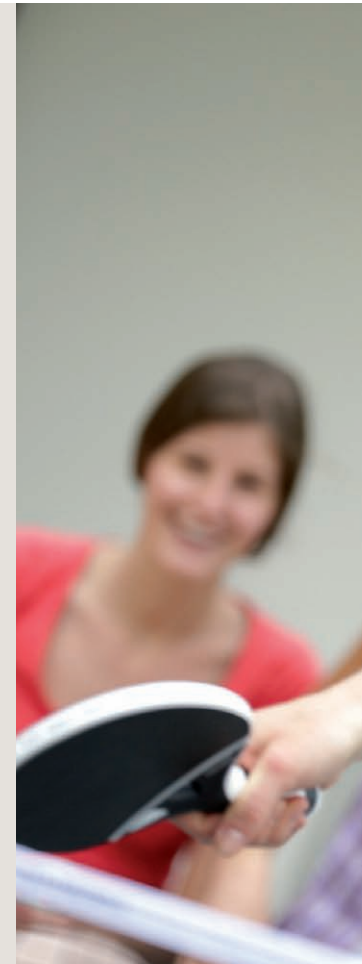

CROSSING HANDLE

This crossing handle lets you easily lift the table to avoid obstacles (step, edge of a terrace, doorway...).

BATS STORAGE

Specific bats storage placed on both side of the table to store and protect 4 bats and 8 balls

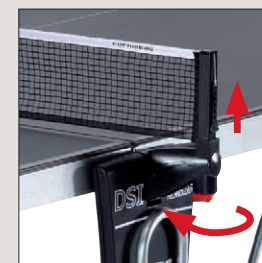

MAXIMISE YOUR PLAYING PLEASURE

RETRACTABLE NET

The net swivels automatically between the two panels when you close the table, further optimizing storage space and providing better safety when stored.

ADJUSTABLE NET HEIGHT AND TENSION

This dual system means your net will always be perfectly adjusted — in terms of height and tension.

ADJUSTABLE LEG HEIGHT

Large feet allows to adjust your table for a perfectly level playing surface on uneven ground.

SKIL
TOP

Cornilleau is the first manufacturer to develop this system for competition tables. The patented COMPACT TECHNOLOGY system undoubtedly represents the best offer on the market in terms of storage, safety and ease of use.

Cornilleau has developed, designed and produced competition level tables for more than 30 years. All our tables comply with European safety standards EN 14468. To ensure the highest safety levels, Cornilleau product compliance goes much higher than this standard.

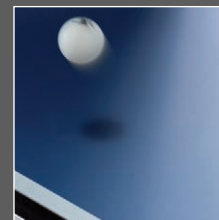

DSI[®]

Thanks to a central unlocking handle, the table can be opened and closed extremely easily. The DSI system has 16 locking points. The table is fully locked in the playing position and folding position. The safest table on the market.

Cornilleau guarantees the tables against manufacturing defects for 3 years.

**SKIL[®]
TOP**

SKILTOP coating, specific to our competition tables, was developed with the utmost care to detail. It ensures an extremely reliable and regular bounce, as well as optimum adherence to the playing surface for perfect return of play.

A RANGE OF INNOVATIONS FOR EXCEPTIONAL TABLES

WHEELCHAIR PLAY

The leg assembly has been designed to allow for the locking of a chair under the table for wheelchair play. ITTF W standard.

FIXED POSTS

ITTF posts fixed permanently to the table will save you time on each installation. The height of the net can be adjusted without affecting tension.

EXTREMELY ROBUST MATERIALS

The materials selected for our competition tables are particularly robust (example: sides and feet entirely made

MINIMUM STORAGE SPACE

The leg assembly has been designed to stack tables during storage, providing minimum storage space. Optimal storage size: 1 table = 65 cm + 45 cm for each adding table.

LONG LASTING OUTDOOR BATS

2006 : The product of Cornilleau's experience in table tennis and Michelin's expertise in rubber, along with 3 years of R&D with engineers from Michelin's laboratories, Cornilleau launches Tacteo, the first dual-injected composite bat that combines strength, durability and design.

2011 : The second generation Tacteo is introduced with a new covering. The optimized GRIP+ provides more speed and spin.

Waterproof

**Shock
resistant**

**Not
detachable**

THE BLADE

Increased strength.

The injected polymer blade provides an extremely solid core with improved resistance to impact, UVs and humidity. Its unique design is ergonomic and very comfortable to use.

BI-INJECTION

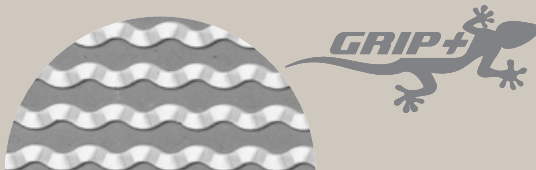

Non removable covering.

The bi-injection manufacturing process ensures perfect adhesion between the covering and the blade. This adhesion of 2 innovative composite materials has enabled us to create the first blade with a non-detachable covering. It is completely resistant to the effects of time and humidity.

GRIP+ COVERING

For a better grip.

Using their technical expertise, Michelin engineers have developed the GRIP+ concept, an extremely dynamic covering with a revolutionary anisotropic form.

TACTEO 50

The perfect alliance of technological innovation and design, this composite bat, based on a revolutionary concept, offers unique benefits both in terms of its resistance to shocks and outdoor conditions and comfortable feel.

Ref. : 455 106

TACTEO DUO

Includes 2 Tacteo bats and three balls, this pack is perfect for ping pong parties with family members and friends.

With bright colors and a trendy shape, this will be popular with kids and adults.

***PING,
A CHILD'S PLAY***

***FOR INITIATING
FUTURE
CHAMPIONS***

The Baby Ping

There are a whole host of great reasons to encourage your child to take up ping. It's a friendly sport, which can be played amongst several people and enables the development of psychomotor skills, concentration as well as a shrewd mind. A tool such as BABY PING enables fast learning so you can start playing and having fun.

The DVD

«Le Ping pour les 4-7 ans »,
The training method used sets up the path to success, which makes initial exchanges easier. Based on the domain of the imagination (the circus world, wild animals and accounts), the exercises and recreational circuits are combined with the notion of enjoyment. (only available in French).

At school: the situations suggested in the DVD, correspond with the French education programs, with real progress from one situation to the next (from first to fifth year primary school age), which will help the child acquire new skills, while stimulating thought and concentration.

At the club: the training situations work on dexterity and motor skills.

At home: the imagination of the child is stimulated through situations he or she will be able to put into practice on their own, or in collaboration with others and in duels. This will encourage their address and speed of execution, as well as teaching them about the values of sport such as respect and working towards a goal.

BABY PING Kit

DVD, bats and balls

Réf : 422 051

+ PRODUCTS

- a : Light weight : ~ 20%
- b : Short handle : 9 cm
- c : Thin handle : ~ 15%
- d : Reduced paddle
- e : Comfort zones for the hand (smoothed edges and thumb)

The balls come in a variety of shapes and materials. Made of foam or celluloid, they make the initial exchanges easier thanks to a slower speed but a dynamic bounce. The large balls measuring 55 mm in diameter make the strokes and the spins easier. Finally, two-tone balls enable the player to visualize the rotation.

CHAMPION BATS

Réf : 629021

This bat is perfectly suited to club beginners between 6 and 10 years of age, thanks to its specific ergonomics (perfect handle and paddle size, comfort zones for the hand). Its speed and grip will allow young beginners to familiarize themselves with spin. The size of the handle (9 cm long) means they can make a backhand under good conditions.

- 5-Plywood blade
- ITTF Approved
- Performa 1 rubber, 1,5mm
- weight: 150g

CHAMPION BATS 10-PACK

ideal as a club purchase.
Comes in a zippered nylon bag.

TEAM

"The career of a top-level athlete isn't a bed of roses. Simon Gauzy learnt this to his cost at the end of last season, when an injury brought his exemplary ascent of the world ranking to an abrupt halt.

These tough times are part and parcel of an athlete's life. They allow the person to grow in stature and progress, and it's in times such as these that you learn how important high quality support is."

RUBBERS

Target

Pulse

Pilot

Drive

Start Up'

TARGET SERIES

TARGET SERIES is a range of «made in Germany» rubbers and the result of a research and development program involving Cornilleau experts, Michelin engineers and the world's largest manufacturer of rubbers. The top priority for this project: reaching the highest level of performance and safety in top spin and counter top spin strokes.

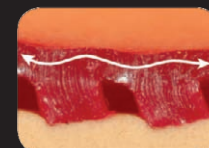

TECHNOLOGY TO IMPROVE YOUR GAME

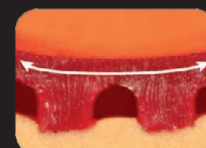

THE RE-INVENTED TOP-SHEET

Each TARGET, PULSE, PILOT, and DRIVE rubber top-sheet developed by Cornilleau and Michelin experts have a special formula-tion to optimize elasticity and a unique pimple shape.

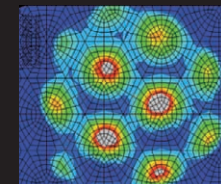

Buckling by traditional pimple

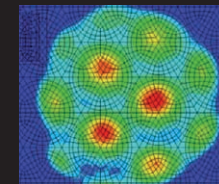

No buckling by Spin-Drive pimple

The specific geometry limits buckling formation (uneven deformation) thanks to an optimal pimple resistance under ball pressure, which provides you with MORE PRECISION. Buckling reduction avoids creation of a "waving" phenomenon between the rubber and the ball, and enables the possibility to give MORE SPIN.

BALL/COVERING CONTACT Images showing mechanical simulations (top view)

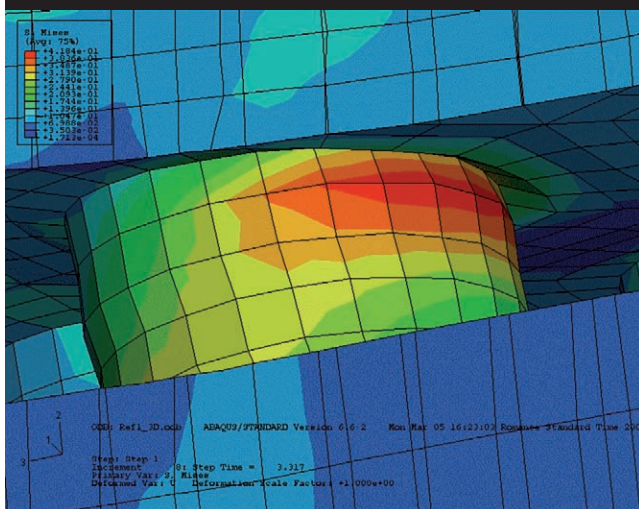

Traditional pimple
• Numerous non contact areas with the ball
• Important zones of Overpressure

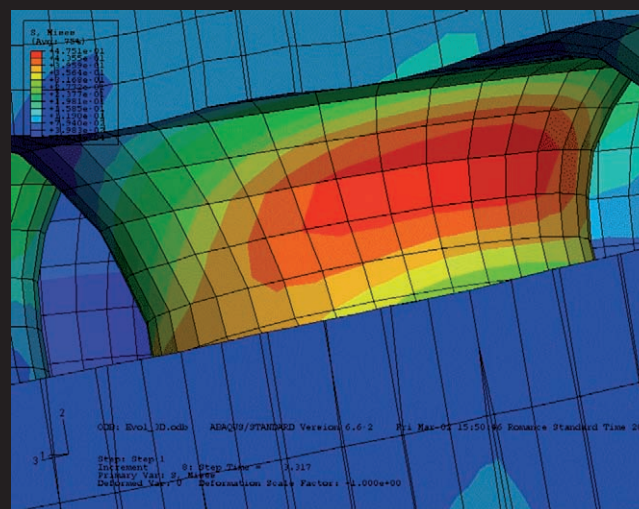

Spin-Drive pimple
• A more homogeneous contact area
• better contact with the ball
• Less overpressure

Better pressure distribution provides a higher fatigue resistance for a more DURABLE ADHERENCE.

Traditional pimple

Spin-Drive pimple

MAXIMUM SECURITY

SPIN -DRIVE 3D technology consists in optimizing the three factors of pimples performance: shape, size and density. So, each TARGET covering has its own combination in order to achieve a specific goal: grip + precision for TARGET Ultim, grip + speed for TARGET Force, and grip + sound for TARGET Sound.

The GRIP EXTEND top-sheet, by its elasticity and impressive level of grip, will allow you to put more spin on each ball.

The specific composition and structure of its HHL pores allows NEXTENS sponge to interact more effectively with the pimples located under the surface in contact with the ball. The result: an impressive high curved trajectory for maximum safety.

MADE IN JAPAN

The Efficient Curve, Spin-Drive and DynaCell technologies are all part of our Long Life Performance program. Their combination guarantees you perfect stability over time and great sustainability of the two main performance criteria: grip and speed.

***LONG LIFE
PERFORMANCE***

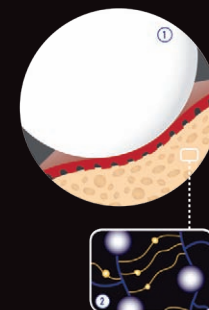

PULSE RACER

With its DynaCell sponge version 43°, PULSE Racer offers extremely demanding players radical efficiency in every one of their offensive strokes. The Efficient Curve technology combines power and topspin rotation, and provides incredible counter-topspin security. 2,0/2,2 • Red/Black

PULSE RIDER

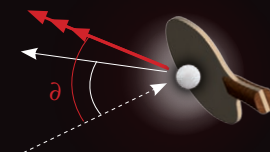

PULSE Rider is for everyone whose ultimate priorities are pleasure, the feeling of ball touch and sound quality. DynaCell sponge version 38°, combined with the compact Efficient Curve, will impress topspinners with its incredible performance, especially with mid-way loops. 2,0/2,2 • Red/Black

A unique vulcanization process improves the elasticity of rubber by forming thousands of polysulfide bonds (in yellow in illustration 2) between the macromolecules of the sponge (in blue and white in illustration 2). A significant proportion of natural rubber, combined with uniform cells (in dark beige in illustration 1), constitute the special features of our sponge. The 3D network is optimized and can respond more effectively to the impact of each ball. This optimization of the nature/structure dimension of the material is the key to new levels of performance in terms of rendering energy. This key technology now has a name: DynaCell.

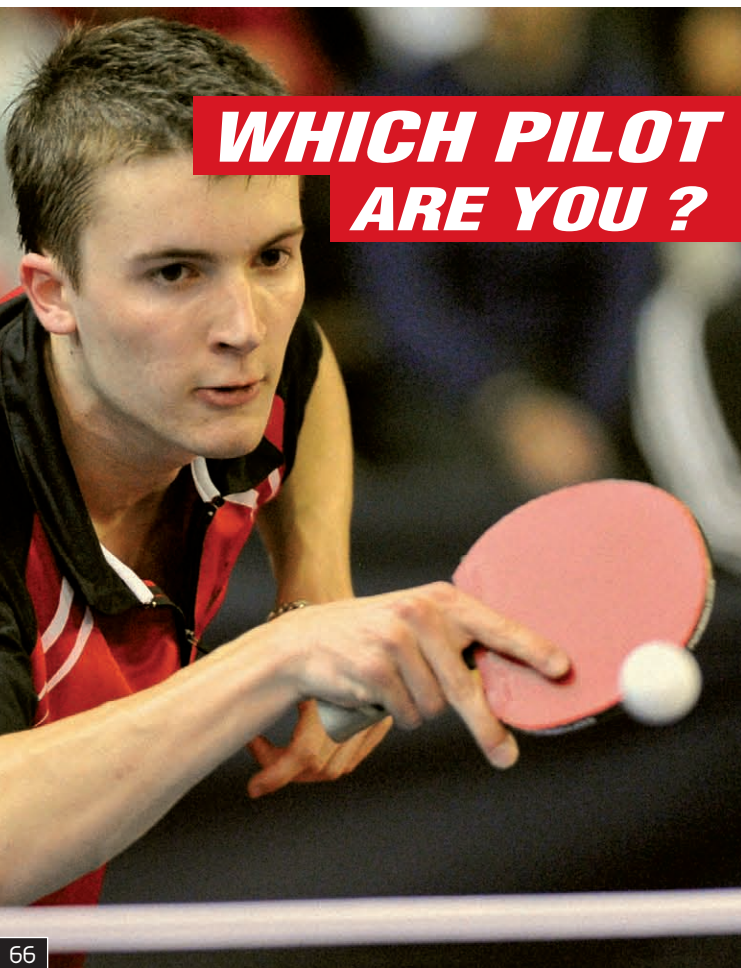

EFFICIENT CURVE

Made of 90% natural rubber, the Efficient Curve top-sheet achieves an unrivalled degree of grip on coverings this fast.

The displacement angle θ achieved with the Efficient Curve makes it possible:

- to have more security making first topspin on chops
- to combine power and spin in a topspin smash (even if the bat is very closed).
- to "loop" the ball during mid-distance rallies

**WHICH PILOT
ARE YOU ?**

Soft 30°
Medium 40°
Hard 50°
OFF+

PILOT ADVANCE

PILOT Advance boasts the In-Tens sponge technology in the 40° version associated with the compact Spin-Drive. Firm and extremely dynamic, this uncompromising covering is aimed firstly at experienced players with a strong topspin, topspin smash, counter loop and active block. 1,8/2,0/2,2 • Red/Black

Soft 30°
Medium 40°
Hard 50°
OFF+

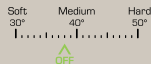

PILOT POWER

The In-Tens sponge technology in the 35° version, associated with the compact Spin-Drive, makes this covering a unique product! Soft yet incredibly dynamic, Pilot Power is aimed at resolutely offensive players, seeking maximum sensation in terms of topspin, especially at mid-distance, or when changing rhythm. 1,8/2,0/2,2 • Red/Black

PLEASURE WITH CONTROL

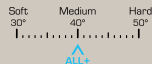

DRIVE STYLE

DRIVE Style is an offensive covering providing a fairly soft 38° sponge. As well as the benefits of the Spin-Drive technology, you will obtain excellent performance in topspin and shots, while maintaining some extraordinary sensations. Easy to control, this covering offers enormous possibilities in terms of varying effects and strokes.
1,8/2,0/2,2 • Red/Black

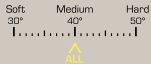

DRIVE CONTROL

DRIVE Control is the multi-use covering par excellence! Boasting Spin-Drive technology, it is mainly aimed at players who like to stand close to the table, adept at taking counter initiatives and varying effects. Perfect for beginners at 1.6mm, it is much more powerful at 1.8mm or 2.0mm.
1,6/1,8/2,0 • Red/Black

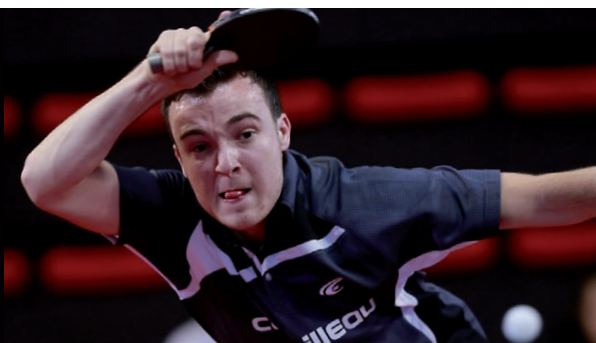

START UP'

Endowed with a perfectly optimized grip, START UP' passes on effectively the spin to the ball, while remaining very tolerant in counter-attack and in service return. Especially while topspinning, it makes the difference thanks to its sponge (1.8mm with a hardness of 40°). The result: an extraordinary control of ball and an impressive sensation of safety. START UP' is the best you can find to start in competition.
1,8 • Red/Black

BLADES

Gatien

Hinotec

Aero

The top range Gatien Blades Series, result of traditional Swedish expertise, required around 2 years' development for our teams. Each of these blades - Pure, Vision, Absolum, Glory, Conquest, Origin and Crown - thus boasts a very strong personality, which translates as an impressive sensation of stability and precision in the game, particularly at full pace. These ultra-high performance blades, developed for the most demanding among you, will give you a truly unique experience!

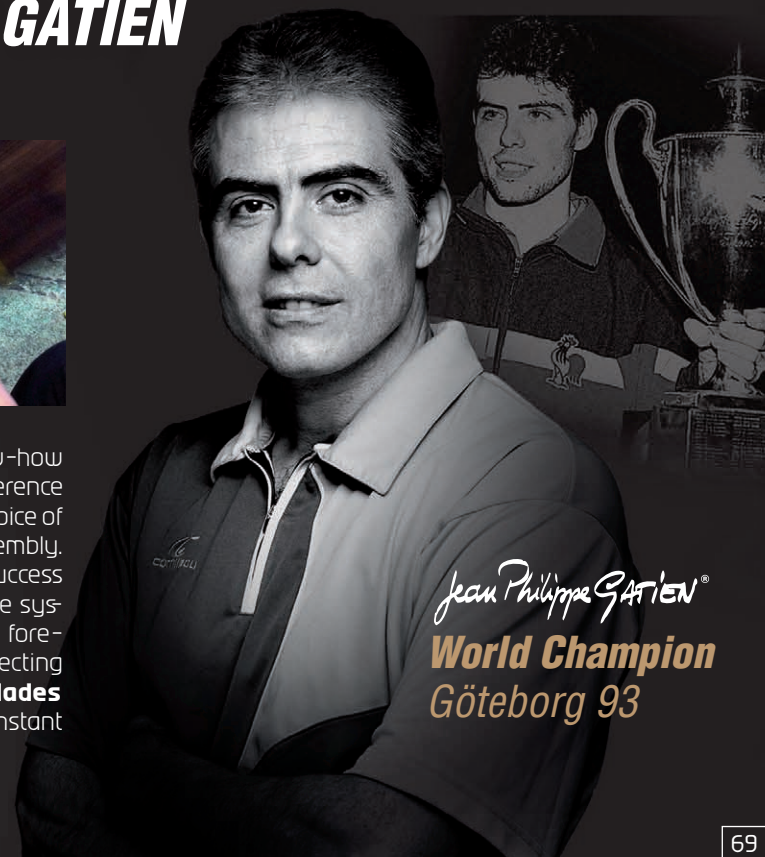

**THE SWEDISH
PERFECTION**

JEAN-PHILIPPE GATIEN BLADES SERIES

Within this field, Swedish know-how stands out as an absolute reference point: highest mastery in the choice of wooden essences, in their combination and assembly. «Two main factors have been the keys to my success in 1993: the improvement of an innovative game system based on the speed and the precision of my forehand, but also the high level specifications in selecting the material. The « **Jean-Philippe Gatien Blades Series** » is based on my experience and my constant search for effectiveness. »

Jean-Philippe GATIEN®
World Champion
Göteborg 93

NEW

JEAN-PHILIPPE GATIEN BLADES SERIES

5-Plywood
External layers : Anigre
Weight : 85g
Handle shapes :
FL/ST/AN/CP

GATIEN CROWN ALL+

The genuine combination
used by Jean-Philippe Gatien in 1993.

The essence of Swedish expertise
is featured by this top of the range
5-plywood blade.
The external Anigre layers give the
additional dynamism required for finishing
shots.
The thicker central structure, associated
with the 2 walnut layers, provides
this controlling blade great stability
and exceptional versatility.

PURE CARBON OFF+

A revolutionary 15-ply
structure.

15-ply for a unique topspin
sensation! This "elastic" power
is also harnessed on the strike,
whilst the counter-initiative of
comfort and safety are never
overlooked.

15-Plywood (13+2 Carbon)
External layers : Limba
Weight: 85g
Handle shapes:
FL/ST/AN/CP

VISION SOFT CARBON OFF+

A "soft carbon" blade which
really packs a punch.

A "carbon" sensation which keeps
a low profile at low speed, but is
capable of releasing a huge burst of
power when necessary. Formidably
efficient.

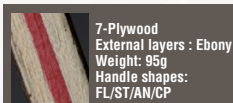

7-Plywood (5+2 Carbon)
External layers :
Tiba Mahogany
Weight: 85g
Handle shapes:
FL/ST/AN/CP

ABSOLUM OFF+

Pure Power in the pure state.

Devastating power obtained through the use of surface ebony. The central plies are of uniform thickness, heightening the sense of control necessary in blade of this quality.

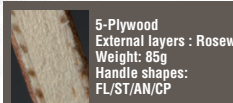

7-Plywood
External layers : Ebony
Weight: 95g
Handle shapes:
FL/ST/AN/CP

GLORY OFF

An impressive output.

A slender blade structure, yet extremely dynamic on impact. The outer Rosewood plies provide precision and vibro-acoustic comfort.

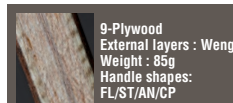

5-Plywood
External layers : Rosewood
Weight: 85g
Handle shapes:
FL/ST/AN/CP

CONQUEST OFF

A sturdy character.

The hard outer Wenge plies make the blade extremely responsive. This incisiveness is perfectly counterbalanced by the clever use of balsa on either side of the triple central birch ply.

9-Plywood
External layers : Wenge
Weight : 85g
Handle shapes:
FL/ST/AN/CP

ORIGIN OFF-

To be consumed without moderation.

The central structure, made up of three uniform Abachi plies gives this blade impressive stability. This translates as impeccable control in every phase of play.

7-Plywood
External layers : Walnut
Weight: 90g
Handle shapes:
FL/ST/AN/CP

THE RIGHT BALANCE

Comfort zones:
thumb, joint between
handle and paddle.

**Extremely high quality
finish:**
Hinoki rim
(protection + design)

HinoTec

**THE NOBLEST OF WOODS
FOR EACH PLAYING STYLE !**

Hinoki, which is present on the external ply and is combined with other carefully selected woods, offers a perfect balance between dynamism, ball handling and precision.

The Hinoki thus allows our HinoTec blade range to provide new sensations for each game style, and ensures a pleasurable game, as well as an extremely high quality finish.

Another notable aspect: unlike 100% Hinoki blades, which provide extremely high tones, the sound issued on each impact by HinoTec blades range will also delight you.

HINOTEC OFF+ CARBON

Favoring top spin smashes, counter loops and active blocks, you seek the maximum power in each of your strokes. Very precise and perfectly controllable when taking the counter-initiative, Hinotec OFF+ Carbon blade is a redoubtable weapon at mid-distance, and its stroke will convince the most demanding player!

5 - Plywood	85 g
1-5: Hinoki	FL/ST/AN/CP
2: Carbon	
3: Kiri	

HINOTEC OFF

3 words to describe Hinotec OFF: power, sensation and precision. Resolutely offensive, this blade is easy to control under all circumstances. Experienced players will appreciate the ability to choose from a range of rhythms. The most polyvalent player can boost their game, as long as they are reasonable when it comes to choosing coverings.

5 - Plywood	85 g
1-5: Hinoki	FL/ST/AN/CP
2-4: Limba	
3: Kiri	

HINOTEC OFF-

Hinotec OFF - blade suits to any game style. Surprisingly dynamic for a blade of this category, it can also satisfy more experienced players, as long as they choose fast coverings, as well as the most polyvalent players seeking responsiveness in his attacks.

5 - Plywood	85 g
1-5: Hinoki	FL/ST/AN/CP
2-4: Limba	
3: Ayous	

HINOTEC ALL+

A model of tolerance, Hinotec ALL+ blade is reassuring. Whether you are a polyvalent player, or just a beginner, this is for you! Don't get the wrong idea, this blade isn't slow. It provides startling sensations of control and ease of play, without ever letting you down when you need to speed up or strike the killing blow.

5 - Plywood	85 g
1-5: Hinoki	FL/ST/AN/CP
2-4: Limba	
3: Ayous	

AERO

Ultra light blades (70-75 g)
Extreme sensations

The concept allows optimal transmission to the handle of shock waves generated on impact with the ball. The hand's sensorial system immediately processes the sensations necessary for perfect response.

5-PLYWOOD
1 + 5 : Fineline
2 + 4 : Ayous (or carbon for the OFF+ version)
3 : Kiri

FINELINE EDGE Protection

AERO OFF+ SOFT CARBON

Probably the lightest "Carbon" blade on the market! Its two "High Tech" layers (special blend of carbon and epoxy-resin fibres) will provide the owners of this resolutely offensive blade with unprecedented sensations of power and precision. A perfect choice for those who want to muscle up their game or just discover the joys of carbon!

5-Plywood (3+2)
75g
FL / CP

AERO OFF

Sensations and speed are greater than ever with the AERO OFF blade. Topspinners will love the incredible feeling of safety and ease of play it offers. AERO technology will also allow you to immediately enjoy perfect control and great comfort.

5-Plywood
75g
FL / CP

AERO OFF-

With the big growth in "new generation" rubbers, often very fast, it is up to offensive players to choose the right blade to limit their counterattack and service-return fouls. This AERO OFF- blade features an extraordinary compromise between speed and security. Topspin enthusiasts will especially appreciate its flexibility as well as its haunting sound delivery.

5-Plywood
75g
FL / CP

AERO ALL+

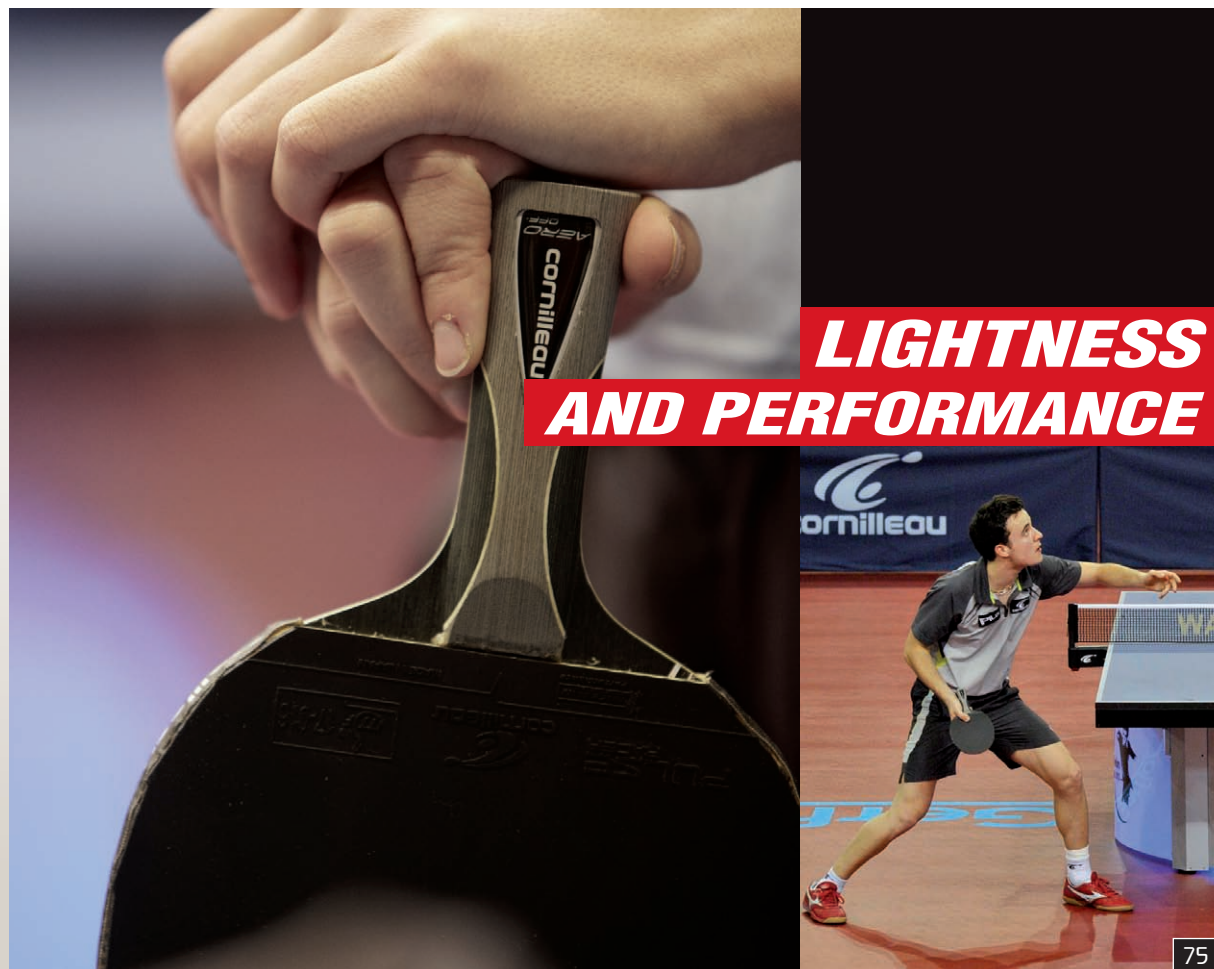

Rarely has a blade suited so many different playing styles. The AERO ALL+ blade is unique in offering instantaneous comfort and security while effectively making all offensive strokes. Unrivalled multi-use!

5-Plywood
75g
FL / CP

AERO ALL

A real «featherweight», the AERO ALL blade is a sure winner for all players looking for maximum control and sensations. Whether you are a good all-around player or more defensive, you will be convinced after just a few rallies. Enjoy a new range of playing pleasures thanks to AERO technology.

MAKING YOUR LIFE EASIER

Safety

All our tables comply with the European safety standard EN 14468 -1. To ensure the highest safety levels, Cornilleau product compliance exceeds this standard.

Assembly

Cornilleau tables are easy to assemble using clear and detailed diagrams. Many parts are pre-assembled in our factory. User guides and labels on each playing surface describe the main safety guidelines and instructions for use. Average assembly time: 1 hour

Guarantee

Cornilleau guarantees the tables against manufacturing defects for 3 years. This guarantee is extended to 10 years for the playing surfaces of outdoor tables.

After sales service/ spare parts

Our customers benefit from high quality products and an excellent after sales service. Spare parts can be ordered directly from www.cornilleau-services.com

For tables manufactured within a minimum of the last 10 years.

Cornilleau after sales service: located at our headquarters in Bonneuil-les-Eaux (France), this department comprises specialists who can answer your questions and provide advice with just a simple call to:

PLAYING STRATEGIES

DEF

DEFINITION: «Traditional» defense, far from the table, generally involving chops (with both forehand and backhand).

MATERIAL: Very often a «long pimple-out» rubber (with or without sponge) on backhand, combined with an «inverted» rubber on forehand. The player can turn his bat.

ADVICES: ALL to OFF- «inverted» rubber, with a sponge hardness $< \text{ or } = 40^\circ$. Thickness of the sponge (for «inverted» rubber): less than or equal to 1.8mm. DEF to ALL+ blade.

DEF+

DEFINITION: «Modern» defense, namely a DEF game with frequent counter-attacks generally incorporating smash or topspin shots.

MATERIAL: «long pimple-out» rubber (with sponge) on backhand, combined with an «inverted» rubber on forehand. The player often turns his bat.

ADVICES: ALL+ to OFF+ «inverted» rubber, with a sponge hardness $< \text{ or } = 42.5^\circ$. Thickness of the sponge (for «inverted» rubber): from 1.6 to 1.8mm (or even 2.0mm, according to the level of the player). ALL to OFF- blade.

ALL-

DEFINITION: A passive game based on small pushes and blocks alternating with mid-distance defensive shots. Offensive shots are pretty rare.

MATERIAL: «pimple-out» rubber (short, mid-long or long) or «antispin» on backhand, combined with an «inverted» rubber on forehand. The player barely turns his bat.

ADVICES: ALL to OFF «inverted» rubber, with a sponge hardness $< \text{ or } = 40^\circ$. Thickness of the sponge (for «inverted» rubber): from 1.6 to 1.8mm. ALL to ALL+ blade.

ALL

DEFINITION: varied game, more geared around a mid-distance from the table and favoring ball control, placement and variations in spin. The aim is to cause your opponent to commit an error.

MATERIAL: Two «inverted» rubbers.

ADVICES: ALL+ to OFF rubber with a sponge hardness $< \text{ or } = 40^\circ$. Thickness of the sponge from 1.8 to 2.0mm. ALL to OFF- blade.

ALL+

DEFINITION: varied and precise game with blocks and counter-initiatives, closer to the table than the ALL- and ALL games. The placement, variations in spin and rhythm are used in order to secure easy-scoring balls.

MATERIAL: Two «inverted» rubbers.

ADVICES: ALL+ OFF covering rubbers (OFF+ drive according to level), with a sponge hardness $< \text{ or } = 40^\circ$. Thickness of the sponge from 1.8 to 2.0mm. ALL to OFF blade.

OFF-

DEFINITION: Offensive play with variations in rhythm and spin, most often slightly mid-distance from the table. Basically topspin is widely used here, principally with late contact on the ball and some fairly high, curved trajectories.

MATERIAL: Two «inverted» rubbers.

ADVICES: OFF/OFF+ rubbers, with a sponge hardness $< \text{ or } = 42.5^\circ$ on both sides. Thickness of the sponge from 1.8 to 2.0mm. ALL+ to OFF+ blade.

OFF

DEFINITION: Complete offensive play, combining fast strokes close to the table and variations in rotation at mid-distance from the table. The topspins are varied and often powerful, accentuated blocks and the player especially mobile.

MATERIAL: Two «inverted» rubbers.

ADVICES: OFF+ rubber with a sponge hardness $> 40^\circ$ on forehand and $< \text{ or } = 42.5^\circ$ on backhand. Thickness of the sponge from 2.0mm to max. OFF- to OFF+ blade.

OFF+

DEFINITION: Very offensive style where taking the initiative is the absolute priority. The player moves about close to the table, returning the ball very early using topspin smashes, loops or active blocks. The player may also move away to a mid-distance from the table with wide-ranging and powerful topspins.

MATERIAL: Two «inverted» rubbers. Possible use of short «pimple-out» rubber on one of the two sides (common in Asia). The ball is then «punched» back on the bounce!

ADVICES: OFF+ rubbers with a sponge hardness $> 40^\circ$ on both sides. Thickness of the sponge from 2.0mm to max. OFF to OFF+ blade.
