Escalade Sports Corporate Office
Evansville, Indiana

FROM THE DESK OF **DAVE FETHERMAN** PRESIDENT / SPORTS

Dear Valued Customer,

We at Escalade Sports are proud to present to you our 2012-2013 Product Line. As you know, our product line focuses largely on leisure time, recreational activities for the family. As you review our many product categories, we'd like to call your attention to our new additions that help us in our goal to provide the best options for your various sporting goods needs.

We have added the very popular Unicorn® line of Darts and Darting Equipment. This addition provides product choices for darts and accessories appropriate for every performance level of player, from recreational to World Championship competition. See our new selections on pages 40-45.

With our continued commitment to Sports Training for all members of the family, we have continued to expand the Sports Training Equipment line under our Goalrilla™ brand. You can find our entire family of Sports Training Equipment on pages 34-38. For additional information, we invite you to visit www.goalrilla.com.

This year we are extremely pleased to bring you an innovative new approach to Outdoor Games, under our new Zume Games® brand. Zume Games will remind you and your customers of fun, familiar games that they grew up with, but with exciting, innovative design twists that make them truly unique. Check them out on pages 6-7. If you want to see these exciting new games in action, see the videos at www.zume-games.com.

Even though we continue to grow and maintain a dominant market share in Table Tennis Tables in the US, our product development teams have worked even harder than ever to design and develop the newest generation of our Stiga® Table Tennis Tables. See our entire Stiga product line on pages 10-23.

Finally, we are proud to stand behind our quality products with our industry leading Customer Service Team of professionals. It is our goal to bring you and your customers the very best experience when shopping for sports training equipment and sporting goods for family fun.

We hope you enjoy perusing our new catalog, and find some of our new offerings to be innovative and exciting. We continue to be committed to offering you and your customers the broadest, most comprehensive line of sporting goods and products for family fun leisure activities, and now, through our sports training offerings, products for those who aspire to achieve higher levels of performance.

We genuinely appreciate your business.

Founded as Indian Archery & Toy Corporation in 1927, Escalade Sports is known worldwide for new product development, quick turn shipping capabilities, the highest quality products, unparalleled customer service and most importantly standing behind our customers. Over its 85 year history, Escalade Sports has become a global company and a major player in the Sporting Goods industry through organic growth, expansion, and acquisition.

As we emerge from the economic environment of a world-wide recession, Escalade Sports is focused on product innovation and brand marketing, while planning to grow in current segments and entering new categories; two of the most recent being Zume Games (p.4) and Goalrilla Training (p.30).

Escalade Sports is poised to continue growing organically through strategic acquisitions and the introduction of new product lines, new channels of distribution and new retail partners. The result is a reliable, experienced, one-stop shop, backed by world class customer service, delivering to you and your customer the very best products and the most desirable brands for all their home recreational and leisure activity needs.

Escalade Sports' products are designed to increase the quality of life of your customers by adding to the quality of their play. That's why we say we are Serious Play!

A boy in a green polo shirt and black cargo pants stands on the left, holding a red ring. A girl in a yellow t-shirt and blue jeans is running towards the right, holding a green ring. A green ring is suspended in the air between them. In the foreground, a black trampoline with a green mat and a red ring on it sits on the grass. The brand name 'ZUMEB' is visible on the trampoline's frame. The background consists of lush green trees and a grassy field.

The **OPTIMUM 30** is the first table with a 30 mm thick top, creating unparalleled evenness and ball rebound consistency. The top is pre-treated multiple times and then coated with a special varnish to give it just the right amount of gloss and the ideal frictional coefficient. The result is the truest possible bounce, even when balls are spun at the highest level.

RACKET TECHNOLOGY

ACS

- Numerous microscopic air-capsules in an ultralight rubber allows high speed to be combined with maximum elasticity and outstanding control.

WRB

- **Weight Balance:** The balance of the blade is shifted to the point of contact with the ball
- **Rate of Recovery:** The decrease in blade weight improves rate of recovery after each stroke
- **Ball Sensitivity:** The strategically positioned recess in the handle provides extra sensitivity of touch

CRYSTAL TECHNOLOGY

- STIGA's unique process that hardens the surface of the blade, thus increasing its speed.

STIGA TUBE

- Manufactured using a technology where the middle veneer has gone through a revolutionary treatment. STIGA has programmed its high tech blade manufacturing machines to mill "Micro-Channels" lengthways in the middle ply of the blades. The channels are then filled with different materials depending on the blade's desired characteristics.

BALSA TECHNOLOGY

- Ultra lightweight balsa wood center-ply helps increase speed and reaction time
