360° Ping

From the top-level competition table to the recreational table, from equipment for the champion to the ultra-durable outdoor bat, from the latest generation ball to the ultra-specific accessory, Cornilleau is certainly the only brand to offer such a wide range so as to appeal to every ping-pong player, whatever their level, their environment, their desires and their needs. Armed with this specificity, our present aim is to broaden this spectrum a little more by enabling each user to enjoy a genuine 'product' experience, which is unique, distinct and increasingly thrilling and enjoyable!

A controlled savoir-faire

Cornilleau is evolving on the world market thanks to some highly innovative products of great quality. The introduction of the 'laminated' panel has enabled ping to be played outdoors, whilst the 'Compact Technology' concept has raised the "ergonomics, safety and design" triptych to a whole new level. All the Cornilleau tables are designed, developed and manufactured in France, within the very hub of the business in Bonneuil-les-Eaux in the Oise department (Picardy), the Cornilleau family's native village. The research and development laboratory is here at the heart of the factory: with 'Made in France' grey matter, designed to think up, design and manufacture all the products. Frequently partnering top-level international events, Cornilleau was the official World Team Cup supplier and sponsor in 2007, 2009, 2010 and 2011.

FRENCH
SAVOIR-FAIRE

The confident choice

Cornilleau guarantees your tables against any manufacturing defect for a 3-year period. This warranty is extended to 10 years for outdoor tabletops. Meantime, the Park table benefits from a 10-year warranty on all its components.

All our tables comply with the European safety standard EN 14468. However, in order to ensure the utmost level of safety, Cornilleau has positioned its products well above this standard.

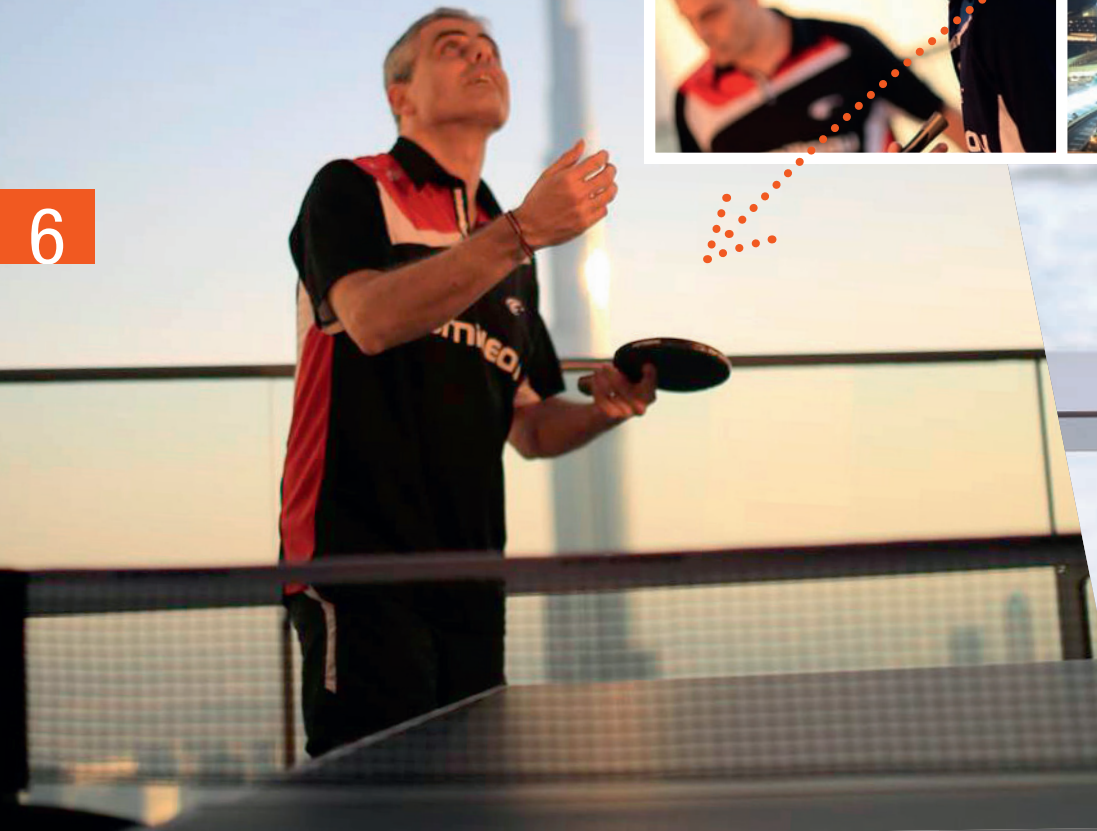

A GLOBAL PRESENCE

Our fast-expanding distribution network means that the influence of the Cornilleau brand is exerted across 5 continents, which today encompasses over 75 countries.

SUPPORT FOR THE ATHLETES:
JEAN-PHILIPPE GATIEN'S
PRIMARY MISSION.

A CHAMPION'S EXPERTISE

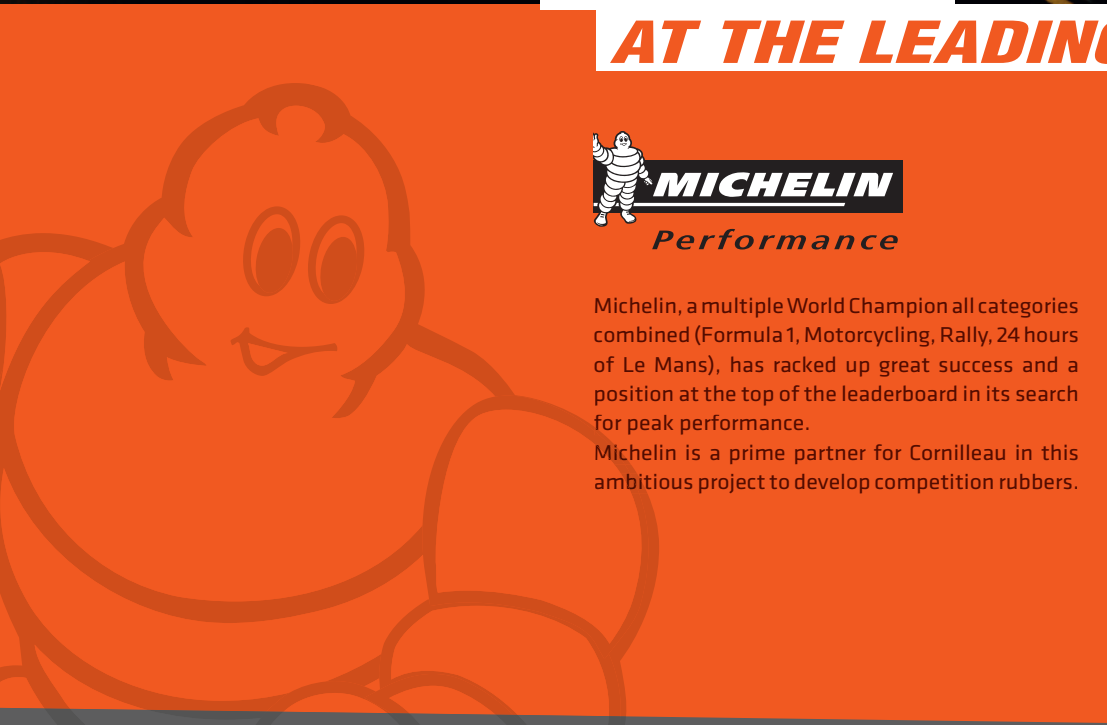

World Champion, double Olympic medallist and ambassador of the Cornilleau brand since 1993, Jean-Philippe Gatien has been heavily involved in Cornilleau's competition scheme since 2007. In charge of the Players Team, he guides our athletic youngsters in their quest for excellence by sharing with them his experience at the pinnacle of top-level competition and giving them an honest perspective on all the various performance levers. A genuine added value to the sponsorship programme at Cornilleau, the support of athletes is at the very heart of the brand's concerns and is translated in Jean-Philippe's action.

MICHELIN AND CORNILLEAU HAVE A SINGLE AIM, TO OFFER YOU THE HIGHEST PERFORMANCE COVERINGS ON THE MARKET!

RUBBERS **AT THE LEADING EDGE OF TECHNOLOGY**

Michelin, a multiple World Champion all categories combined (Formula 1, Motorcycling, Rally, 24 hours of Le Mans), has racked up great success and a position at the top of the leaderboard in its search for peak performance.
Michelin is a prime partner for Cornilleau in this ambitious project to develop competition rubbers.

CAN AKKUZU
FRENCH JUNIOR
CHAMPION 2014

TEAM CORNILLEAU

"One of the strengths of big teams lies in the in-house competition and each individual's powers to surpass themselves so as to exist through their performances. Galvanised by the French Senior Champion title 2013 and victory in 2014 in the world final of the ITTF Pro Tour (under 21s) for Simon Gauzy, the members of Team Cornilleau are continuing their advancement towards excellence. There is a way to go yet, but the initial results are very encouraging: at 18 years of age, Hugo Calderano is now part of the World Senior Top 70 and the World Junior Top 3, whilst Can Akkuzu

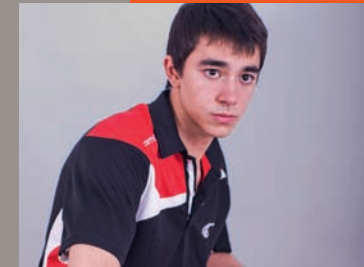

is the new French Junior Champion 2014. Indeed both of them have qualified for the Youth Olympic Games, a highly symbolic competition during which Simon secured a bronze medal in 2010. The values of the Olympic spirit are well documented: excellence, friendship and respect... We try to convey these values on a daily basis in the support offered to the members of Team Cornilleau." *Jean-Philippe Gatien.*

Experience Ping!

A NEW VISION OF PING

The fact that Ping is so popular is because everyone views it as a symbol of shared enjoyment and guaranteed conviviality with family or friends. Whether it's played indoors or outdoors, at home or elsewhere, the simplicity and efficiency of the concept have made it universally renowned. That said, the methods for playing it are constantly evolving. Ping now works on many different levels, which is a reflection of society and every one of us. Retro or hip, vintage or connected, full-on or relaxed, classic or eccentric, sensible or colourful... more than ensuring you have a great time, Cornilleau invites you to create your own Ping Experience!

OUTDOOR TABLES

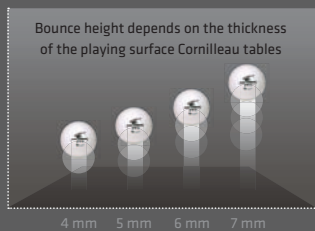

High quality materials adapted to meet your needs.

What if you leave your table outside all year ?

Cornilleau has been a pioneer in «outdoor» tables for the garden. They are designed with anti-corrosion materials ensuring resistance to bad weather.

BOUNCE HEIGHT

Panels in solid resin laminate, resistant to bat blows. The thicker the panel (4 to 7 mm), the better the bounce.

THE SAFEST TABLE ON THE MARKET

DSI®

Integrated Double Security

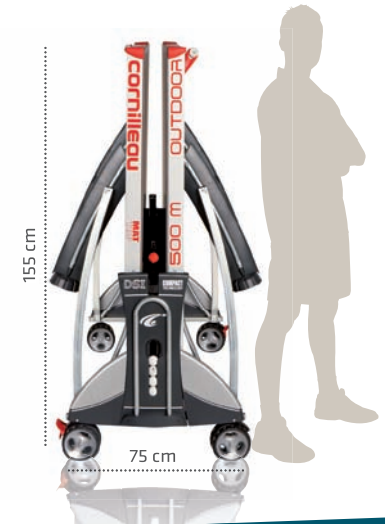

Using a central release handle, the table can be opened and closed with extreme ease. The DSI system has 16 locking points. The table is fully locked in playing and storage positions. What's more, because of its unique system, if a child opens the table and releases the handle, the panel automatically locks at 65°, thereby avoiding any risk of accident. Finally, if the top is not fully locked in the playing position, a second locking level stops the top from flipping over.

COMPACT® TECHNOLOGY

Easy to store

The patented «Compact Technology» system ensures optimum safety, easy movement and minimizes storage space requirements.

The **+** of the recreational tables

TO MAKE FAMILY LIFE SIMPLER AND SAFER

CORNER PROTECTION PADS

Protection on each corner of the table to guarantee maximum safety for your children.

WHEELS WITH BRAKES

Brakes provide great stability for even better playing comfort, providing additional safety when the table is in storage.

BALL DISPENSERS

Placed alongside the player, these dispensers are extremely practical, meaning balls are always within easy reach.

CROSSING HANDLE

This crossing handle lets you easily lift the table to avoid obstacles (step, edge of a terrace, doorway...).

BATS STORAGE

Specific bats storage placed on both side of the table to store and protect 4 bats and 8 balls.

RETRACTABLE NET

The net swivels automatically between the two panels when you close the table, further optimizing storage space and providing better safety when stored.

ADJUSTABLE NET HEIGHT AND TENSION

This dual system means your net will always be perfectly adjusted in terms of height and tension.

ADJUSTABLE LEG HEIGHT

Large feet allows to adjust your table for a perfectly level playing surface on uneven ground.

cornilleau

**OFFICIAL SUPPLIER
TO THE FRENCH FEDERATION EVENTS**

COMPETITION TABLES

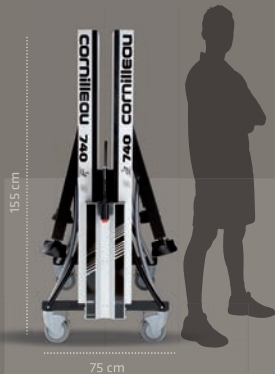

Cornilleau has developed, designed and produced competition level tables for more than 30 years. All our tables comply with European safety standards EN 14468. To ensure the highest safety levels, Cornilleau product compliance goes much higher than this standard.

Cornilleau guarantees the tables against manufacturing defects for 3 years.

36

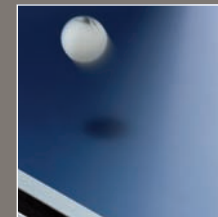

**COMPACT[®]
TECHNOLOGY**

Cornilleau is the first manufacturer to develop this system for competition tables. The patented COMPACT TECHNOLOGY system undoubtedly represents the best offer on the market in terms of storage, safety and ease of use.

DSI[®]

Thanks to a central unlocking handle, the table can be opened and closed extremely easily. The DSI system has 16 locking points. The table is fully locked in the playing position and folding position. The safest table on the market.

**SKIL[®]
TOP**

SKILTOP coating, specific to our competition tables, was developed with the most care to detail. It ensures an extremely reliable and regular bounce, as well as optimum adherence to the playing surface for perfect return of play.

A RANGE OF INNOVATIONS FOR EXCEPTIONAL TABLES

WHEELCHAIR PLAY

The leg assembly has been designed to allow for the locking of a chair under the table for wheelchair play. ITTF W standard.

FIXED POSTS

ITTF posts fixed permanently to the table will save you time on each installation. The height of the net can be adjusted without affecting tension.

ROBUST MATERIALS

The materials selected for our competition tables are particularly robust (example: sides and feet entirely made of steel).

MINIMUM STORAGE SPACE

The leg assembly has been designed to stack tables during storage, providing minimum storage space. Optimal storage size: 1 table = 65 cm + 45 cm for each adding table.

740 ITTF

THE 740 ITTF TABLE IS BRIMMING WITH INNOVATION. THE REFERENCE IN TOP-LEVEL COMPETITION TABLES THIS EXCEPTIONAL TABLE COMBINES ALL CORNILLEAU'S SAVOIR-FAIRE. FOR INITIATING FUTURE CHAMPIONS

The Baby Ping

There are a whole host of great reasons to encourage your child to take up ping. It's a friendly sport, which can be played amongst several people and enables the development of psychomotor skills, concentration as well as a shrewd mind. A tool such as BABY PING enables fast learning so you can start playing and having fun.

THE DVD

«Le Ping pour les 4-7 ans »,
The training method used sets up the path to success, which makes initial exchanges easier. Based on the domain of the imagination (the circus world, wild animals and accounts), the exercises and recreational circuits are combined with the notion of enjoyment. (only available in French).

AT SCHOOL: the situations suggested in the DVD, correspond with the French education programs, with real progress from one situation to the next (from first to fifth year primary school age), which will help the child acquire new skills, while stimulating thought and concentration.

AT THE CLUB: the training situations work on dexterity and motor skills.

AT HOME: the imagination of the child is stimulated through situations he or she will be able to put into practice on their own, or in collaboration with others and in duels. This will encourage their address and speed of execution, as well as teaching them about the values of sport such as respect and working towards a goal.

CHAMPION BATS 10-PACK

+ PRODUCTS

- a : Light weight : - 20%
- b : Short handle : 9 cm
- c : Thin handle : - 15%
- d : Reduced paddle
- e : Comfort zones for the hand (smoothed edges and thumb)

Ideal as a club purchase. Comes in a zippered nylon bag.

This bat is perfectly suited to club beginners between 6 and 10 years of age, thanks to its specific ergonomics (perfect handle and paddle size, comfort zones for the hand). Its speed and grip will allow young beginners to familiarize themselves with spin. The size of the handle (9 cm long) means they can make a backhand under good conditions.

- 5-Plywood blade
- ITTF Approved
- Performa 1 rubber, 1,5mm
- weight: 150g

The two-tone «Panda» bat enables the spin of the ball to be discovered thanks to the quality of the rubber, as well as enabling better control of the ball thanks to a thick foam coating which absorbs shock. The edges of the blade are softened. Naturally the hand grip has been adapted with a shorter (8cm) and narrower handle (2.2cm) with a reduced weight, just 110g as opposed to 150g for an adult's beginner bat.

The balls come in a variety of shapes and materials. Made of foam or celluloid, they make the initial exchanges easier thanks to a slower speed but a dynamic bounce. The large balls measuring 55 mm in diameter make the strokes and the spins easier. Finally, two-tone balls enable the player to visualize the rotation.

THE RE-INVENTED TOP-SHEET

EACH TARGET COVERING TOP-SHEET (DEVELOPED BY CORNILLEAU AND MICHELIN EXPERTS) HAVE A SPECIAL FORMULATION TO OPTIMIZE ELASTICITY AND A UNIQUE PIMPLE SHAPE.

The special formulation and cell structure enable the NEXTENS sponge to interact more efficiently with the pimples below the surface in contact with the ball. The GT (GREAT TENSION) evolution of our NEXTENS sponge provides additional strength, as well as transmitting greater rotation onto the ball.

The IN-TENS² sponge is at the pinnacle of the market's references in terms of the transmission of energy. It fully satisfies the expectations of even the most demanding players by providing enhanced contact with the ball, precision and comfort. It also guarantees maximum enjoyment thanks to the sound emitted with each stroke.

The GRIP EXTEND and GRIP EXTEND PLUS compacts enable you to transmit even greater spin in every phase of the game through their increased elasticity and impressive level of grip.

The SPIN-DRIVE 3D technology is the optimisation of 3 performance settings in the top-sheet's pimples: shape, size and density. Each TARGET covering features its own combination so as to reach a very specific target: grip + power for TARGET PRO GT, grip + precision for TARGET Ultim, grip + speed for TARGET Force, and grip + sound for TARGET Sound.

The optimisation of the density and geometry of the pimples is one of the keys to performance with the coverings.

- The FAST combination guarantees rapidity and power.
- The SOUND combination guarantees sensation and decibels.
- The SPEED combination guarantees speed and precision.
- The SPIN combination guarantees control and rotation.

TARGET SERIES

TARGET SERIES IS A RANGE OF « MADE IN GERMANY » RUBBERS AND THE RESULT OF A RESEARCH AND DEVELOPMENT PROGRAM INVOLVING CORNILLEAU EXPERTS, MICHELIN ENGINEERS AND THE WORLD'S LARGEST MANUFACTURER OF RUBBERS. THE TOP PRIORITY FOR THIS PROJECT: REACHING THE HIGHEST LEVEL OF PERFORMANCE AND SAFETY IN TOPSPIN AND COUNTER-TOPSPIN STROKES.

STRIVE FOR EXCELLENCE WITH

TARGET PRO GT

NEW

60

Performance

TARGET PRO GT-H47 OFF+

Available in 1 sponge hardness : 47°
2,0/MAX
red/black

If like Simon Gauzy you're looking to start off your game full of spin, with the maximum precision in counter topspin, incisive put-away shots, ever more power and topspin curve over the top, as well as safety in terms of a counter initiative... Don't hesitate a second longer, opt for the best of its kind: Target Pro GT-H47.

TARGET ULTIM 50 - 47,5 OFF +

Available in 2 sponge hardnesses: 50°/47,5°
2,0/MAX
red/black

Security + precision.
A radical covering to suit
the most demanding amongst you.

TARGET FORCE 45 - 42,5 OFF +

Available in 2 sponge hardnesses: 45°/42,5°
2,0/MAX
red/black

Security + speed.
The perfect compromise between speed,
grip and comfort.

TARGET SOUND 37,5 OFF +

Available in 1 sponge hardness: 37,5°
2,0/MAX
red/black

Security + sound.
A cocktail comprising 100% enjoyment with
a base of dynamism, grip and sound.

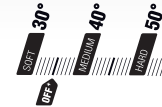

NEW

PILOT FAST

2,0/MAX
red/black

Pilot Fast is one of the most highly responsive rubbers on the market. With its 40° IN-TENS² sponge associated with its grippiest and most dynamic top-sheet (GRIP EXTEND and FAST technologies), Pilot Fast is a genuine concentration of energy and speed.

PILOT SOUND POWER

2,0/MAX
red/black

Pilot Sound Power is one of the most sonorous rubbers on the market. With its 35° IN-TENS² sponge associated with its grippiest and most optimised top-sheet (GRIP EXTEND and SOUND technologies), Pilot Sound Power is a genuine concentration of energy and sensation.

NEW

DRIVE SPEED

1,8/2,0
red/black

Drive Speed is a traditional covering 'Made in Japan' for offensive play. Its qualities: clean and immediate transmission of energy, substantial and lasting grip, fairly firm 45° sponge for greater precision. A classic for your offensive game.

DRIVE SPIN

1,8/2,0
red/black

Drive Spin is a traditional all-round covering 'Made in Japan'. Its qualities: very substantial, lasting grip, moderate transmission of energy for greater versatility, fairly soft 40° sponge for heightened sensation. A classic for your all-round game.

START UP'

1,8
red/black

Endowed with a perfectly optimized grip, START UP ' passes on effectively the spin to the ball, while remaining very tolerant in counter-attack and in service return. Especially while topspinning, it makes the difference thanks to its sponge (1,8mm with a hardness of 40°). START UP ' is the best you can find to start in competition.

JEAN-PHILIPPE GATIEN BLADES SERIES

The top range Gatién Blades Series, result of traditional Swedish expertise, required around 2 years' development for our teams. Each of these blades - Pure, Vision, Absolum, Glory, Conquest, Origin and Crown - thus boasts a very strong personality, which translates as an impressive sensation of stability and precision in the game, particularly at full pace. These ultra-high performance blades, developed for the most demanding among you, will give you a truly unique experience!

Within this field, Swedish know-how stands out as an absolute reference point: highest mastery in the choice of wooden essences, in their combination and assembly. «Two main factors have been the keys to my success in 1993: the improvement of an innovative game system based on the speed and the precision of my forehand, but also the high level specifications in selecting the material. The « Jean-Philippe Gatién Blades Series » is based on my experience and my constant search for effectiveness. »

 Jean-Philippe GATIEN®
World Champion
Göteborg 93

JEAN-PHILIPPE GATIEN BLADES SERIES

CROWN ALL+

The genuine combination used by Jean-Philippe Gatién in 1993.

The essence of Swedish expertise is featured by this top of the range 5-plywood blade.

The external Anigre layers give the additional dynamism required for finishing shots. The thicker central structure, associated with the 2 walnut layers, provides this controlling blade great stability and exceptional versatility.

5-Plywood
External layers : Anigre
Weight : 90g
Handle shapes :
FL/ST/AN/CP

PURE CARBON OFF+

A revolutionary 15-ply structure.

15-ply for a unique topspin sensation ! This «elastic» power is also harnessed on the strike, whilst the counter-initiative of comfort and safety are never overlooked.

15-Plywood (13+2 Carbon)
External layers : Limba
Weight: 85g
Handle shapes:
FL/ST/AN/CP

VISION SOFT CARBON OFF+

A " soft carbon " blade which really packs a punch.

A " carbon " sensation which keeps a low profile at low speed, but is capable of releasing a huge burst of power when necessary. Formidably efficient.

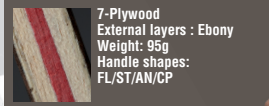

7-Plywood (5+2 Carbon)
External layers :
Tiba Mahogany
Weight: 85g
Handle shapes:
FL/ST/AN/CP

ABSOLUM OFF+

Pure power in the pure state.

Devastating power obtained through the use of surface ebony. The central plies are of uniform thickness, heightening the sense of control necessary in blade of this quality.

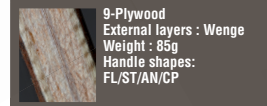

7-Plywood
External layers : Ebony
Weight : 95g
Handle shapes:
FL/ST/AN/CP

CONQUEST OFF

A sturdy character.

The hard outer Wenge plies make the blade extremely responsive. This incisiveness is perfectly counterbalanced by the clever use of balsa on either side of the triple central birch ply.

9-Plywood
External layers : Wenge
Weight : 85g
Handle shapes:
FL/ST/AN/CP

GLORY OFF

An impressive output.

A slender blade structure, yet extremely dynamic on impact. The outer Rosewood plies provide precision and vibro-acoustic comfort.

5-Plywood
External layers : Rosewood
Weight : 85g
Handle shapes:
FL/ST/AN/CP

ORIGIN OFF-

To be consumed without moderation.

The central structure, made up of three uniform Abachi plies gives this blade impressive stability. This translates as impeccable control in every phase of play.

7-Plywood
External layers : Walnut
Weight : 90g
Handle shapes:
FL/ST/AN/CP

THE RIGHT BALANCE

Comfort zones:
thumb, joint between
handle and paddle.

**Extremely high
quality finish:**
Hinoki rim
(protection + design).

Straight

Anatomical

Flared

Chinese penholder

HinoTec

**THE NOBLEST OF WOODS
FOR EACH PLAYING STYLE !**

Hinoki, which is present on the external ply and is combined with other carefully selected woods, offers a perfect balance between dynamism, ball handling and precision.

The Hinoki thus allows our HinoTec blade range to provide new sensations for each game style, and ensures a pleasurable game, as well as an extremely high quality finish.

Another notable aspect: unlike 100% Hinoki blades, which provide extremely high tones, the sound issued on each impact by HinoTec blades range will also delight you.

THE HINOTEC BLADES ARE
PARTICULARLY APPRECIATED BY
THE PLAYERS THAT MAKE UP
TEAM CORNILLEAU.

68

CAN AKKUZU
FRENCH JUNIOR
CHAMPION 2014

HINOTEC OFF+ CARBON

Favoring top spin smashes, counter loops and active blocks, you seek the maximum power in each of your strokes. Very precise and perfectly controllable when taking the counter-initiative, Hinotec OFF+ Carbon blade is a redoubtable weapon at mid-distance, and its stroke will convince the most demanding player!

5 - Plywood 85 g
1-5: Hinoki FL/ST/AN/CP
2-4: Carbon
3: Kiri

HINOTEC OFF

3 words to describe Hinotec OFF: power, sensation and precision. Resolutely offensive, this blade is easy to control under all circumstances. Experienced players will appreciate the ability to choose from a range of rhythms. The most polyvalent player can boost their game, as long as they are reasonable when it comes to choosing covering.

5 - Plywood 85 g
1-5: Hinoki FL/ST/AN/CP
2-4: Limba
3: Kiri

HINOTEC OFF-

Hinotec OFF - blade suits to any game style. Surprisingly dynamic for a blade of this category, it can also satisfy more experienced players, as long as they choose fast coverings, as well as the most polyvalent players seeking responsiveness in his attacks.

5 - Plywood 85 g
1-5: Hinoki FL/ST/AN/CP
2-4: Limba
3: Ayous

HINOTEC ALL+

A model of tolerance, Hinotec ALL+ blade is reassuring. Whether you are a polyvalent player, or just a beginner, this is for you! Don't get the wrong idea, this blade isn't slow. It provides startling sensations of control and ease of play, without ever letting you down when you need to speed up or strike the killing blow.

5 - Plywood 85 g
1-5: Hinoki FL/ST/AN/CP
2-4: Limba
3: Ayous

70

AERO

Ultra light blades (70-75 g) Extreme sensations

The concept allows optimal transmission to the handle of shock waves generated on impact with the ball. The hand's sensorial system immediately processes the sensations necessary for perfect response.

5-PLYWOOD

1 + 5 : Fineline
2 + 4 : Ayous (or carbon for the OFF+ version)
3 : Kiri

FINELINE EDGE Protection

LIGHTNESS AND PERFORMANCE

AERO OFF+ SOFT CARBON

Probably the lightest "Carbon" blade on the market! Its two "High Tech" layers (special blend of carbon and epoxy-resin fibres) will provide the owners of this resolutely offensive blade with unprecedented sensations of power and precision. A perfect choice for those who want to muscle up their game or just discover the joys of carbon!

5-Plywood (3+2)
75g
FL / CP

AERO OFF

Sensations and speed are greater than ever with the AERO OFF blade. Topspinners will love the incredible feeling of safety and ease of play it offers. AERO technology will also allow you to immediately enjoy perfect control and great comfort.

5-Plywood
75g
FL / CP

AERO OFF-

With the big growth in "new generation" rubbers, often very fast, it is up to offensive players to choose the right blade to limit their counterattack and service-return fouls. This AERO OFF- blade features an extraordinary compromise between speed and security. Topspin enthusiasts will especially appreciate its flexibility as well as its haunting sound delivery.

5-Plywood
75g
FL / CP

AERO ALL+

Rarely has a blade suited so many different playing styles. The AERO ALL+ blade is unique in offering instantaneous comfort and security while effectively making all offensive strokes. Unrivalled multi-use!

5-Plywood
75g
FL / CP

AERO ALL

A real «featherweight», the AERO ALL blade is a sure winner for all players looking for maximum control and sensations. Whether you are a good all-around player or more defensive, you will be convinced after just a few rallies. Enjoy a new range of playing

Safety

All our tables comply with the European safety standards EN 14468. However, in order to ensure the utmost level of safety, Cornilleau has positioned its products well above this standard.

Assembly

Cornilleau tables are easy to assemble using clear and detailed diagrams. Many parts are pre-assembled in our factory. User guides and labels on each playing surface describe the main safety guidelines and instructions for use. Average assembly time: 1 hour

Guarantee

Cornilleau guarantees your tables against any manufacturing defect for a 3-year period. This warranty is extended to 10 years for outdoor tabletops. Meantime, the Park table benefits from a 10-year warranty on all its components.

After sales service/ spare parts

Our customers benefit from high quality products and an excellent after sales service. Spare parts can be ordered directly from www.cornilleau-services.com

For tables manufactured within a minimum of the last 10 years.

Cornilleau after sales service: located at our headquarters in Bonneuil-les-Eaux (France), this department comprises specialists who can answer your questions and provide advice with just a simple call to: **+33(0)3.44.80.22.22 from Monday to Friday from 8h00 to 12h00 and 13h30 to 17h30. DEF

DEFINITION: «Traditional» defense, far from the table, generally involving chops (with both forehand and backhand).

MATERIAL: Very often a «long pimple-out» rubber (with or without sponge) on backhand, combined with an «inverted» rubber on forehand. The player can turn his bat.

ADVICES: ALL to OFF- «inverted» rubber, with a sponge hardness $< \text{or} = 40^\circ$. Thickness of the sponge (for «inverted» rubber): less than or equal to 1.8mm. DEF to ALL+ blade.

DEF+

DEFINITION: «Modern» defense, namely a DEF game with frequent counter-attacks generally incorporating smash or topspin shots.

MATERIAL: «long pimple-out» rubber (with sponge) on backhand, combined with an «inverted» rubber on forehand. The player often turns his bat.

ADVICES: ALL+ to OFF+ «inverted» rubber, with a sponge hardness $< \text{or} = 42.5^\circ$. Thickness of the sponge (for «inverted» rubber): from 1.6 to 1.8mm (or even 2.0mm, according to the level of the player). ALL to OFF- blade.

ALL-

DEFINITION:

A passive game based on small pushes and blocks alternating with mid-distance defensive shots. Offensive shots are pretty rare.

MATERIAL: «pimple-out» rubber (short, mid-long or long) or «antispin» on backhand, combined with an «inverted» rubber on forehand. The player barely turns his bat.

ADVICES: ALL to OFF «inverted» rubber, with a sponge hardness $< \text{or} = 40^\circ$. Thickness of the sponge (for «inverted» rubber): from 1.6 to 1.8mm. ALL to ALL+ blade.

ALL

DEFINITION: varied game, more geared around a mid-distance from the table and favoring ball control, placement and variations in spin. The aim is to cause your opponent to commit an error.

MATERIAL: Two «inverted» rubbers.

ADVICES: ALL+ to OFF rubber with a sponge hardness $< \text{or} = 40^\circ$. Thickness of the sponge from 1.8 to 2.0mm. ALL to OFF- blade.

ALL+

DEFINITION: varied and precise game with blocks and counter-initiatives, closer to the table than the ALL- and ALL games. The placement, variations in spin and rhythm are used in order to secure easy-scoring balls.

MATERIAL: Two «inverted» rubbers.

ADVICES: ALL+ OFF covering rubbers (OFF+ drive according to level), with a sponge hardness $< \text{or} = 40^\circ$. Thickness of the sponge from 1.8 to 2.0mm. ALL to OFF blade.

OFF-

DEFINITION:

Offensive play with variations in rhythm and spin, most often slightly mid-distance from the table. Basically topspin is widely used here, principally with late contact on the ball and some fairly high, curved trajectories.

MATERIAL: Two «inverted» rubbers.

ADVICES: OFF/OFF+ rubbers, with a sponge hardness $< \text{or} = 42.5^\circ$ on both sides. Thickness of the sponge from 1.8 to 2.0mm. ALL+ to OFF+ blade.

OFF

DEFINITION: Complete offensive play, combining fast strokes close to the table and variations in rotation at mid-distance from the table. The topspins are varied and often powerful, accentuated blocks and the player especially mobile.

PLAYING STRATEGIES

MATERIAL: Two «inverted» rubbers.

ADVICES: OFF+ rubber with a sponge hardness $> 40^\circ$ on forehand and $< \text{or} = 42.5^\circ$ on backhand. Thickness of the sponge from 2.0mm to max. OFF- to OFF+ blade.

OFF+

DEFINITION: Very offensive style where taking the initiative is the absolute priority. The player moves about close to the table, returning the ball very early using topspin smashes, loops or active blocks. The player may also move away to a mid-distance from the table with wide-ranging and powerful topspins.

MATERIAL: Two «inverted» rubbers. Possible use of short «pimple-out» rubber on one of the two sides (common in Asia). The ball is then «punched» back on the bounce!

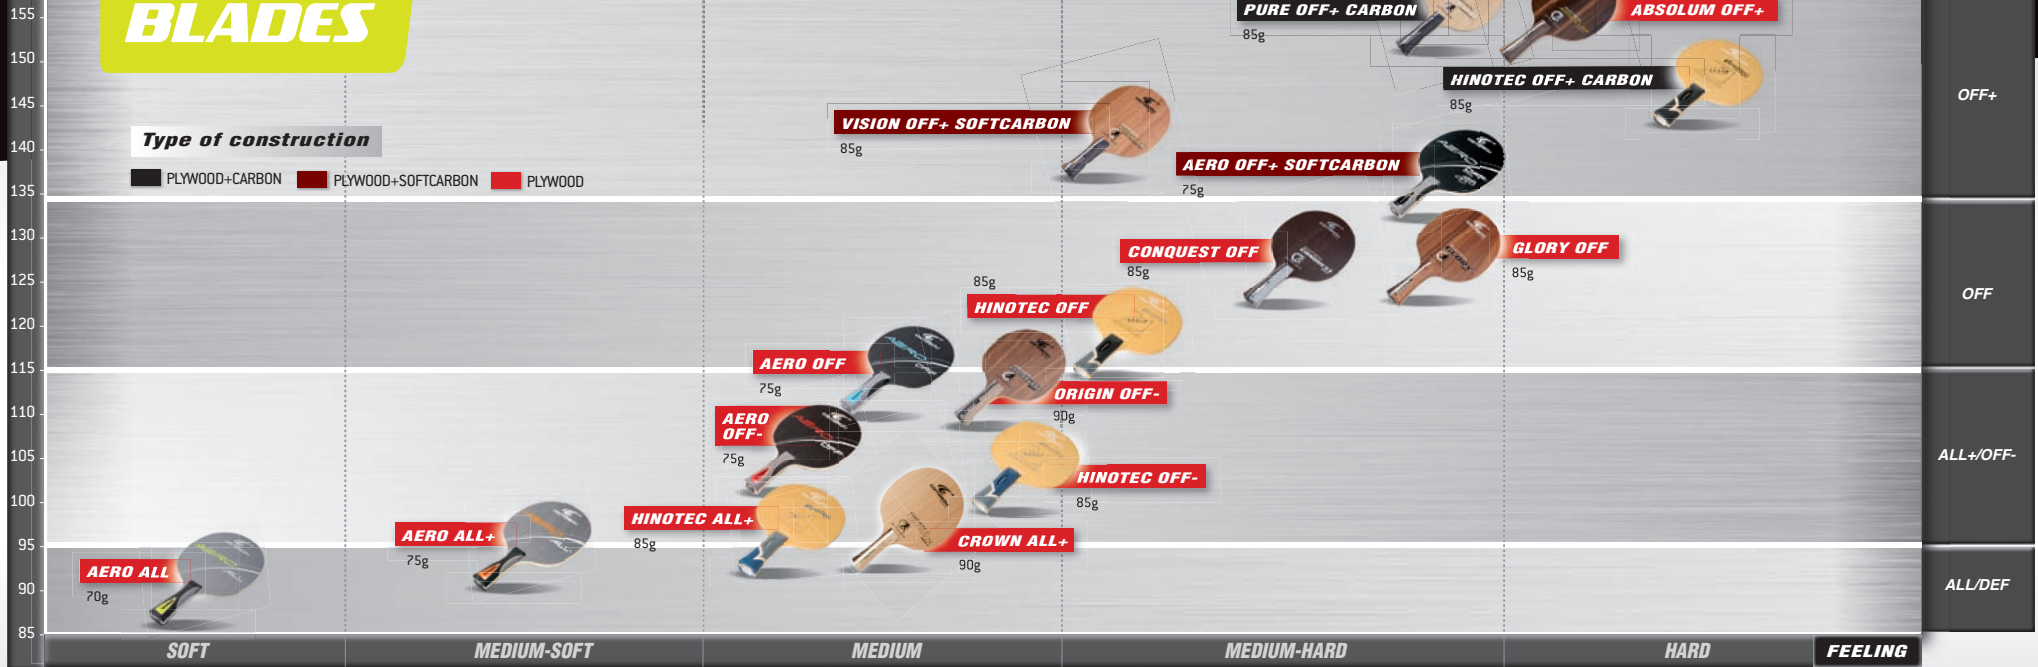

ADVICES: OFF+ rubbers with a sponge hardness $> 40^\circ$ on both sides. Thickness of the sponge from 2.0mm to max. OFF to OFF+ blade.
